Proceedings

Fifth International Symposium on Assessment of Software Tools and Technologies

June 2 – 5 1997
Pittsburgh, Pennsylvania

Edited by E. Nahouraii

Sponsored by
IEEE Computer Society Technical Council on Software Engineering

In cooperation with
Software Engineering Institute, Carnegie Mellon University

IEEE COMPUTER SOCIETY
Los Alamitos, California
Washington • Brussels • Tokyo
# Table of Contents

Fifth International Symposium on Assessment of Software Tools and Technologies — SAST'97

## Introduction to SAST97

Introduction to SAST97 ix

Program Committee Members x

## Opening Remarks and Keynote Address

Software Architecture and Component-based Development  
*Dr. Mary Shaw, Professor, Carnegie Mellon University, USA*

## Session 1: Component Integration

Session Chair: O. Herzog, University of Bremen, Germany

- Toward a Design Handbook for Integrating Software Components 3  
  *C. Dellarocas, Massachusetts Institute of Technology, USA*

- Model-Integrated Development of Complex Applications 14  
  *A. Misra, G. Karsai, J. Sztipanovits, Vanderbilt University, USA*

- Mechanisms for Integration and Enhancement of Software Components 24  
  *J. Rader, Hughes Aircraft Co., USA*

## Session 2: Panel Discussion — Industrial Perspectives on Component Based Software

Moderator: T. Shields, Texas Instruments, USA

## Session 3: Tools and Technology

Session Chair: C. Kemerer, University of Pittsburgh, USA

- Component-Based Software Engineering (CBSE) 34  
  *J. Ning, Andersen Consulting, USA*

- A Compiler for Composition: CHAIMS 44  
  *L. Perrochon, G. Wiederhold, R. Burback  
  Stanford University, USA*

- Dynamic Reconfiguration: Checkpointing Code Generation 52  
  *A. Chowdhury, George Mason University, USA*

## Session 4: Invited Presentation

Session Chair: D. Carney, Software Engineering Institute, USA

## Session 5: Panel Discussion — Maintenance of Component-Based Systems

Moderator: E. Morris, Software Engineering Institute, USA

Panelists:  
*T. Shields, Texas Instruments, USA*  
*S. Hissam, Software Engineering Institute, USA*
Session 6: Modeling the Process for Component-Based Software Engineering  
Session Chair: M. McCabe, Office of Information Technology, USA

PRISM Product Examination Process for Component Based Development
R. Lichota, Hughes Information Technology Systems, USA  
R. Vesprini, Raytheon Electronic Systems, USA  
B. Swanson, TRW, USA  

A Procurement-centric Model for Engineering Component-based Software Systems
V. Tran, ArcQuest Consulting, USA  
D. Liu, California State University, Long Beach, USA

Evaluating Tools to Support Component Based Software Engineering
A. Powell, A. Vickers, University of York, UK  
W. Lam, University of Hertfordshire, UK  
E. Williams, B. Cooke, Rolls-Royce plc, UK

Session 7: Panel Discussion — Evaluation of Component-Based Software Engineering Technology
Moderator: T. Takeshita, Chubu University, Japan

Panelists:
M. Aoyama, Niigata Institute of Technology, Japan  
R. Dumke, University of Magdeburg, Germany  
P. Oberndorf, Software Engineering Institute, USA  
M. Ohba, Hiroshima City University, Japan  
Y. Sato, Hiroshima City University, Japan  
A. Vickers, University of York, England  
A. Winkler, University of Magdeburg, Germany

Metrics and Risks of CBSE
T. Takeshita  

A Framework for Understanding CBSE Risks and Metrics
P. Oberndorf

CBSE: Can We Count the Cost?
A. Vickers

Experimenting Component-Based Technology in Industry Settings
M. Ohba, Y. Sato

Process and Economic Model of Component-Based Software Development: A Study from Software CALS Next Generation Software Engineering Program
M. Aoyama

Managing the Component-Based Software Engineering with Metrics
R. Dumke, A. Winkler

Session 8: Invited Presentation
Session Chair: A. Brown, Texas Instruments, USA

On Components and Objects: The Foundations of Component-Based Development
A. Brown, K. Short, Texas Instruments, USA
Session 9: Management of Component Based Systems
Session Chair: J. Rader, Hughes Aircraft, USA

Managing the Risks of Component-Based Software Engineering .................................................. 123
W. Lam, University of Hertfordshire, UK
A. Vickers, University of York, UK

A Software Development Process for COTS-based Information System Infrastructure .................. 133
G. Fox, S. Marcom, TRW, USA
K. Lantner, EDS, USA

Facilitating Component-Based Software Engineering: COTS and Open Systems ......................... 143
P. Oberndorf, Software Engineering Institute, USA

Index of Authors .................................................................................................................................. 149
