# Table of Contents

**2005 IEEE International Conference on Services Computing**

**SCC 2005**

Message from the General Chairs ................................................................. x
Message from the Program Chairs ................................................................. xi
Committees .................................................................................................. xii

## Keynotes

- XML Data Services ......................................................................................... xvii
  M. Carey
- Web Services Composition: A Story of Models, Automata, and Logics .......... xviii
  R. Hull
- Services Ecosystem ....................................................................................... xx
  G. Galambos
- Five Years of Software as a Service: The Good, the Bad and the Ugly .......... xxi
  E. Feig

## Panels

- Services Science: Services Innovation Research and Education ................... xxv
  Moderator: J. Zhao
  Panelists (alphabetical order): G. Brown, M. Carey, A. Kumar, J. Spohrer,
  and M. Tanniru
- Service-Based Computing Strategy and Planning by IT Professionals .......... xxvii
  Moderator: F. Ferrante
  Panelists (alphabetical order): A. Bragg, K. Christensen, W. Clark, S. Liu,
  J. Williams, and LJ Zhang
- Quality of Manageability of Web Services .................................................. xxix
  Moderator: D. Milojicic
  Panelists (alphabetical order): J. Hai, H. Jain, H. Kreger, G. Lin, and W. Vambenepe
- Experience with Service Computing — A View from the Business World ........ xxi
  Moderator: E. Feig
  Panelists (alphabetical order): A. Arsanjani, C. Gonzales, and Z. Xu
Research Sessions

Full Papers

Security and Trust for SOA

Model-Driven Security Based on a Web Services Security Architecture ................................................................. 7
Y. Nakamura, M. Tatsubori, T. Imamura, and K. Ono

Reckoning Legislative Compliances with Service Oriented Architecture —
A Proposed Approach .......................................................................................................................................................... 16
N. Kulkarni, K. Kumar, and S. Padmanabhuni

Trust2: Developing Trust in Peer-to-Peer Environments ......................................................................................... 24
Y. Wang and V. Varadharajan

Service-Oriented Grid Systems

Gridcast a Grid and Web Service Broadcast Infrastructure ............................................................................................ 35

GeneGrid: A Commercial Grid Service Oriented Virtual Bioinformatics Laboratory .................................................. 43

Trust Embedded Grid System for the Harmonization of Practical Requirements ................................................... 51
J. Hwang, C. Lee, and S. Kim

Compliance and Access Control

Contractual and Regulatory Compliance Challenges in Grid Computing Environments .............................. 61
J. Kesler

Toward Intention Aware Semantic Web Service Systems .................................................................................... 69
C.-H. Lee and A. Liu

Efficient Integration of Fine-Grained Access Control in Large-Scale Grid Services ........................................ 77
P. Mazzoleni, B. Crispo, S. Sivasubramanian, and E. Bertino

Services Management

Knowledge as a Service and Knowledge Breaching ................................................................................................. 87
S. Xu and W. Zhang

Discovery of Information Sources across Organizational Boundaries ................................................................... 95
M. Paolucci, X. Liu, N. Srinivasan, K. Sycara, and P. Kogut

Online and Minimum-Cost Ad Hoc Delegation in e-Service Composition ................................................. 103
C. Gerede, O. Ibarra, B. Ravikumar, and J. Su

Service Mobility

Context Aware Session Management for Services in Ad Hoc Networks ........................................................... 113
R. Handorean, R. Sen, G. Hackmann, and G.-C. Roman

Service Roaming in Mobile Applications ................................................................................................................. 121
R. Gartmann, B. Holtkamp, N. Weißenberg, and G. Li
Mobile and Cooperative Compounds of Multimedia Services

F. Ishikawa, N. Yoshioka, Y. Tahara, and S. Honiden

**Business Process Management**

Service-Based Collaborative Workflow for DAME
D. Russell, P. Dew, and K. Djemame

Toward Web Services Interaction Styles
E. Maximilien and M. Singh

Pyros — An Environment for Building and Orchestrating Open Services
K. Belhajjame, G. Vargas-Solar, and C. Collet

**Business Process Integration**

Toward Formalizing Service Integration Glue Code
L. Davis, R. Gamble, M. Hepner, and M. Kelkar

Transforming Business Process Models: Enabling Programming at a Higher Level
W. Zhao, B. Bryant, F. Cao, K. Bhattacharya, and R. Hauser

From BPEL4WS to OWL-S: Integrating E-Business Process Descriptions
J. Shen, Y. Yang, C. Zhu, and C. Wan

**SOA and Service Infrastructures**

An Investigation on Service-Oriented Architecture for Constructing Distributed Web GIS Application
X. Lu

A Service Management Facility for the Java™ Platform

Modeling and Monitoring Dynamic Dependency Environments
A. Adi, D. Gilat, R. Ronen, R. Rothblum, G. Sharon, and I. Skarbovsky

**SOA and Programming Benchmark**

Using a Rigorous Approach for Engineering Web Service Compositions: A Case Study
H. Foster, S. Uchitel, J. Magee, J. Kramer, and M. Hu

Abacus: A Service-Oriented Programming Language for Grid Applications
X. Wang, L. Xiao, W. Li, H. Yu, and Z. Xu

A Benchmark for Web Service Frameworks
N. Wickramage and S. Weerawarana

**SOA and Services Orchestration**

SOA without Web Services: A Pragmatic Implementation of SOA for Financial Transactions Systems
Z. Duan, S. Bose, P. Stirpe, C. Shoniregun, and A. Logvynovskiy

A Service Discovery Framework for Service Centric Systems
G. Spanoudakis, A. Zisman, and A. Kozlenkov

Towards Agricultural Marketing Reforms: Web Services Orchestration Approach
V. Sorathia, Z. Laliwala, and S. Chaudhary
Services Discovery

XWRAPComposer: A Multi-Page Data Extraction Service for Bio-Computing Applications ................. 271
   L. Liu, J. Zhang, W. Han, C. Pu, J. Caverlee, S. Park, T. Critchlow, M. Coleman, and D. Butterl
Web Service Discovery Based on Behavior Signatures ............................................................................ 279
   Z. Shen and J. Su
Similarity-Based Web Service Matchmaking ........................................................................................... 287
   J. Wu and Z. Wu
A Generalized Framework for Providing QoS Based Registry in Service Oriented Architecture .......... 295
   A. Kumar, A. El-Geniedy, and S. Agarwal

Short Papers

SOA and Business Collaboration

A Policy-Based Approach for QoS Specification and Enforcement in Distributed Service-Oriented Architecture .................................................................................................................. 307
   C. Wang, G. Wang, A. Chen, H. Wang, Y. Pierce, C. Fung, and S. Uczekaj
An Agent-Based Resource Allocation Model for Grid Computing .............................................................. 311
   S. Manvi, M. Birje, and B. Prasad
Bridging the Gap between Business and IT in Service Oriented Business Collaboration .......................... 315
   B. Orriens and J. Yang
Service-Oriented Design with Aspects (SODA) ......................................................................................... 319
   T.-H. Kim and C. Chang

Services Composition and Discovery

An ECA Rule-Based Workflow Design Tool for Shanghai Grid ............................................................. 325
   L. Chen, M. Li, J. Cao, and Y. Wang
A Multi-Agent Negotiation Based Service Composition Method for On-Demand Service ..................... 329
   J. Cao, J. Wang, S. Zhang, and M. Li
Service Retrieval Based on Behavioral Specification ............................................................................. 333
   D. Grigori and M. Bouzeghoub
Fair BPEL Processes Transaction Using Non-Repudiation Protocols ...................................................... 337
   M. Bilal, J. Thomas, M. Thomas, and S. Abraham

Service-Oriented Grid Computing

Monitoring Access to Stateful Resources in Grid Environments .......................................................... 343
   S. Pallickara, B. Plale, S. Jensen, and Y. Sun
P2P Grid: Service Oriented Framework for Distributed Resource Management .................................. 347
   P. Uppuluri, N. Jabisetti, U. Joshi, and Y. Lee
ShanghaiGrid as an Information Service Grid: An Overview ................................................................. 351
