## Proceedings of 2007 IEEE International Conference on Services Computing  
*SCC 2007*

**Message from the General Chairs** .......................................................................................................... xiii
**Message from the Program Committee Chairs** ................................................................................... xiv
**Organizing Committee** .......................................................................................................................... xv
**Technical Program Committee** ............................................................................................................. xvii
**Technical Steering Committee and External Reviewers** ........................................................................ xx
**IEEE Computer Society Technical Program Committee on Services Computing** ............................ xxi

## Keynotes

Services Research at IBM............................................................................................................................. xxii  
*Robert Morris*

Web Services: Meeting the Software Challenge of Future Hardware and Global Business Trends............ xxiii  
*Ike Nassi*

## Panels

Message from the IEEE ICWS/SCC/Services 2007 Plenary Panel Program Co-Chairs .............................. xxiv

Panel 1: Services Computing in Daily Work: Service Engineering vs. Software Engineering.................. xxv  
Panel Moderators and Panelists: *Hemant Jain, Calton Pu, Sridhar Iyenga,*  
*Brian Blake, Carl K. Chang*

Panel 2: Services Computing in Action: Services Architectures ............................................................... xxvii  
Panel Moderators: *Ephraim Feig, Liang-Jie (LJ) Zhang, Ali Arsanjani, Zhiwei Xu*

## Tutorials

Tutorial 1: SOA Solution Reference Architecture .................................................................................... xxix  
*Liang-Jie Zhang*

Tutorial 2: State of the Art in Modeling and Deployment of Electronic Contracts ................................. xxxi  
*Komalakar Karlapalem, Pispal Pathra Krishna*

Tutorial 3: Web Services Security and Privacy .......................................................................................... xxxii  
*Patrick C. K. Hung, Casey K. Fung*

Tutorial 4: Build Your Mashup with Web Services.................................................................................. xxxiv  
*Ning Yan*

Tutorial 5: Semantic SOA in Action: A Practical Demonstration ............................................................ xxxv  
*Parachuri Deepti, Bijoy Majumdar, Ujval Mysore*
Regular Research Papers

Research Session 1

BRAHMA: Planning Tool for Providing Storage Management as a Service ...................................................... 1
Sandeep Uttamchandani, Kaladhar Voruganti, Ramani Routray, Li Yin, Aameek Singh, Benji Yolken

QoS-Aware Optimization of Composite-Service Fulfillment Policy ................................................................. 11
Chun Zhang, Rong N. Chang, Chang-Shing Perng, Edward So, Chunqiang Tang, Tao Tao

Security Policy Specification and Integration in Business Collaboration .......................................................... 20
Daisy Daiqin He, Jian Yang

Research Session 2

SLA Driven Process Security through Monitored E-Contracts ......................................................................... 28
Ritesh Kumar Tiwari, Vishal Dwivedi, Kamalakar Karlapalem

Governance of Cross-Organizational Service Agreements: A Policy-Based Approach ........................................ 36
Yathiraj B. Udupi, Munindar P. Singh

An Infrastructure Virtualisation SOA for VNO-Based Business Models ........................................................... 44
Surya Nepal, Jonathan Chan, Shiping Chen, David Moreland, John Zic

Research Session 3

DoCoSOC—Domain Configurable Service-Oriented Computing ....................................................................... 52
Cristina Marin, Philippe Lalanda

Enabling User Control with Personal Identity Management ............................................................................. 60
Ty Mey Eap, Marek Hatala, Dragan Gašević

Composing Integrated Systems Using GUI-Based Applications and Web Services ........................................... 68
Mark Grechanik, Kevin M. Conroy

Research Session 4

An Approach to Hosting Versioned Web Services .................................................................................. .......... 76
David Frank, Linh Lam, Liana Fong, Ru Fang, Christopher Vignola

Business Process Transformation Wizard: A Bridge between Business Analysts and Business Process
Transformation Technology .......................................................................................................................... 83
Kaori Fujiwara, Bala Ramachandran, Akio Koide, Jay Benayon, Makoto Kano

Service Commitment Strategies in Allocating Services to Applications ........................................................... 91
Hadi Bannazadeh, Alberto Leon-Garcia

Research Session 5

Advanced Verification of Distributed WS-BPEL Business Processes Incorporating CSSA-Based
Data Flow Analysis ............................................................................................................................................ 98
Simon Moser, Axel Martens, Katharina Görlach, Wolfram Amme, Artur Godlinski

Web Service Discovery: Adding Semantics through Service Request Expansion and Latent Semantic
Indexing ......................................................................................................................................................... 106
Aabhas V. Paliwal, Nabil R. Adam, Christof Bornhövd

Accurate and Efficient Stochastic Reliability Analysis of Composite Services Using Their Compact
Markov Reward Model Representations ........................................................................................................ 114
N. Sato, K. S. Trivedi
Research Session 6
Scalable Web Service Discovery on P2P Overlay Network ................................................................. 122
  Gang Zhou, Jianjun Yu, Rui Chen, Hui Zhang
Web 2.0 Services for Identifying Communities of Practice through Social Networks .................. 130
  Stephen J. H. Yang, Jia Zhang, Irene Y. L. Chen
Workflow Composition of Service Level Agreements ........................................................................ 138
  M. Brian Blake, David J. Cummings

Research Session 7
Ubiquitous Services .................................................................................................................................. 146
  Claudio Pinhanez
Uncertainty-Aware QoS Description and Selection Model for Web Services ...................................... 154
  Cheng Wan, Hongbing Wang
Checking E-Service Consistency Using Description Logics .................................................................... 162
  Luigi Dragone, Riccardo Rosati

Research Session 8
Enforcing Integrity of Execution in Distributed Workflow Management Systems .......................... 170
  Frederic Montagut, Refik Molva
Deriving Executable BPEL from UMM Business Transactions ........................................................... 178
  Birgit Hofreiter, Christian Huemer, Philipp Liegl, Rainer Schuster, Marco Zapletal
A Feature Modeling Support for Non-Functional Constraints in Service Oriented Architecture ...... 187
  Hiroshi Wada, Junichi Suzuki, Katsuya Oba

Research Session 9
A Privacy Agreement Model for Web Services ...................................................................................... 196
  Salima Benbernou, Hassina Meziane, Yin Hua Li, Mohand-Said Hacid
A Service-Oriented Analysis and Design Approach to Developing Adaptable Services .................... 204
  Soo Ho Chang, Soo Dong Kim
Fine-Grain, End-to-End Security for Web Service Compositions .................................................. 212
  Lenin Singaravelu, Calton Pu

Research Session 10
Towards Efficient Verification for Process Composition of Semantic Web Services ...................... 220
  Nan Luo, Junwei Yan, Min Liu
Logic-Based Management of Security in Web Services ...................................................................... 228
  Christina Tziviskou, Elisabetta Di Nitto

Short Papers
Short Paper Session 1
A General Attribute Based RBAC Model for Web Service ................................................................. 236
  Yi-qun Zhu, Jian-hua Li, Quan-hai Zhang
Context-Enabled B2B Collaborations ................................................................................................... 240
  P. S. Tan, S. S. G. Lee, A. E. S. Goh, E. W. Lee
Optimization of Collaborative Service Systems Using Experience Evaluation Model ................................... 244

Wei-Feng Tung, Soe-Tsyr Yuan

Short Paper Session 2

Enabling Re-negotiations of SLA by Extending the WS-Agreement Specification ........................................ 248

Giuseppe Di Modica, Valerio Regalbuto, Orazio Tomarchio, Lorenzo Vita

Towards a Theoretical Foundation for Web Services—The Language-Action Perspective (LAP) Approach............................................................ 252

Karthikeyan Umapathy, Sandeep Purao

What Are You Talking About? .......................................................................................................................... 256

Erik Wilde

Application and Industry Track

Application and Industry Paper Session 1

Regret-Based Decentralized Adaptation of Web Processes with Coordination Constraints ............................... 262

Yunzhou Wu, Prashant Doshi

Public Administration Domain Ontology for a Semantic Web Services E-Government Framework ............... 270

Sotirios K. Goudos, Nikolaos Loutas, Vassilios Peristeras, Konstantinos Tarabanis

Integration and Interoperability between Jini Services and Web Services ...................................................... 278

Franco Cicirelli, Angelo Furfaro, Libero Nigro

Application and Industry Paper Session 2

A Fault-Tolerant Middleware Architecture for High-Availability Storage Services ........................................ 286

Sangeetha Seshadri, Ling Liu, Brian F. Cooper, Lawrence Chiu, Karan Gupta, Paul Muench

Impact of Business Service Modes on Distribution Systems: A Reinforcement Learning Approach .............. 294

Minmin Qiu, Hongwei Ding, Jin Dong, Changrui Ren, Wei Wang

RMI: A Framework for Modeling and Evaluating the Resiliency Maturity of IT Service Organizations ......... 300

Anuradha Bhamidipaty, Rohit Lotlikar, Guruduth Banavar

Application and Industry Paper Session 3

Business Value Analysis of IT Services ............................................................................................................... 308

Chunhua Tian, Rongzeng Cao, Wei Ding, Hao Zhang, Juhnyoung Lee

Enhancing Asset Search and Retrieval in a Services Repository Using Consumption Contexts ................. 316

Biplav Srivastava, Karthikeyan Ponnalagu, Nanjangud C. Narendra, Kalapriya Kannan

Agent-Mediated Knowledge Sharing for Services Management ........................................................................ 324

Michael F. Nowlan, M. Brian Blake

Application and Industry Paper Session 4

Using Personal Ontology in Evaluating Service Quality .................................................................................. 332

Jeng-Shin Hung, Alan Liu

Service-Oriented Architecture Based E-Engineering Framework to Support Collaborative Design ............ 340

Jai-Kyung Lee, Seung Hak Kuk, Hyeon Soo Kim, Seong-Whan Park

A Meta-Model Approach for the Deployment of Services-Oriented Applications ........................................ 348

Antonin Chazalet, Philippe Lalanda
Application and Industry Paper Session 5

Model-Based Dependency Management for Migrating Service Hosting Environment ........................................ 356
    Qian Ma, Ying Li, Kewei Sun, Liang Liu

Merging Overlapping Orchestrations: An Application to the Bronze Standard Medical Application .................. 364
    Clémentine Nemo-Cailliau, Tristan Glatard, Mireille Blay-Fornarino, Johan Montagnat

    Christine Legner, Tobias Vogel

Application and Industry Paper Session 6

Services Pricing through Business Value Modeling and Analysis .............................................................. 380
    Wei Ding

Configuration Reasoning and Ontology for Web .............................................................................................. 387
    Dana Glasner, Vugranam C. Sreedhar

A Services Theory Approach to Online Service Applications ............................................................................ 395
    Claudio Pinhanez

Application and Industry Paper Session 7

A Distributed Service-Oriented Mediation Tool ............................................................................................. 403
    Colombe Hérault, Gaël Thomas, Philippe Lalanda

A Workflow-Driven Approach for the Efficient Integration of Web Services in Portals .................................. 410
    Patrick Freudenstein, Martin Nussbaumer, Frédéric Majer, Martin Gaedke

Dynamic Workflow Generation with Interoperable Security Alerts in MANET ............................................. 418
    Casey K. Fung, Patrick C. K. Hung, William M. Kearns, Stephen A. Uczekaj

Application and Industry Paper Session 8

Innovation Patterns ........................................................................................................................................ 427
    Yuriko Sawatani, Fusashi Nakamura, Akira Sakakibara, Masataka Hoshi, Satoshi Masuda

Using Control Theory to Improve Productivity of Service Systems ............................................................ 435
    Yixin Diao

A Formal Model for Mixed Initiative Service Composition ........................................................................... 443
    Jan Schaffner, Harald Meyer, Mathias Weske

Application and Industry Paper Session 9

Collaborative Business Processes Integration and Management—Lessons Learned from Industry .............. 451
    Claudia-Melania Chituc, César Toscano, Américo Azevedo

WS-Policy4MASCA—A WS-Policy Extension Used in the MASC Middleware ................................................. 458
    Vladimir Tosić, Abdelkarim Erradi, Piyush Maheshwari

A Hybrid Architecture for Highly Adaptive and Automated E-Business Platforms ..................................... 466
    Beat Schmid, Christoph Schroth, Till Janner

Application and Industry Paper Session 10

iPOJO: An Extensible Service-Oriented Component Framework .................................................................... 474
    Clement Escoffier, Richard S. Hall, Philippe Lalanda

A Service-Oriented Solution for Retail Store Network Planning ................................................................. 482
    Xinxin Bai, Wei Shang, Wenjun Yin, Jin Dong
BTx-Net: A Token Based Dynamic Model for Supporting Consistent Collaborative Business Transactions................................................................................................................... 490

Haiyang Sun, Jian Yang

Application and Industry Paper Session 11

A Bayesian Network Based Qos Assessment Model for Web Services ............................................................. 498

Guoquan Wu, Jun Wei, Xiaqiang Qiao, Lei Li

Exploring Dependency between Interfaces in Service Matchmaking.................................................................. 506

Li Kuang, Jian Wu, Ying Li, Shuiguang Deng, Zhaohui Wu

Engineering Foreign Exchange Processes via Commitment Protocols............................................................ 514

Nirmit Desai, Amit K. Chopra, Matthew Arrott, Bill Specht, Munindar P. Singh

Application and Industry Paper Session 12

Information Discovery across Organizational Boundaries through Local Caching........................................ 522

Anuradha Gasikanti, Johnson P. Thomas, Mathews Thomas

Rectifying Prejudicial Feedback Ratings in Reputation Based Trust Management.......................................... 530

Yanzhen Zou, Liang Gu, Ge Li, Bing Xie, Hong Mei

A Service Discovery Framework Based on Linear Composition...................................................................... 536

Andrea Zisman, Khaled Mahbub, George Spanoudakis

Application and Industry Paper Session 13

Autonomic Performance Recuperation for Service-Oriented Systems............................................................ 544

Rui Zhang

Resource Allocation Based on Workflow for Enhancing the Performance of Composite Service.................... 552

Bangyu Wu, Chi-Hung Chi, Zhe Chen

Application and Industry Paper Session 14

Variation-Oriented Analysis for SOA Solution Design........................................................................................ 560

Liang-Jie Zhang, Ali Arsanjani, Abdul Allam, Dingding Lu, Yi-Min Chee

A Service-Oriented Solution Framework for Distributed Virus Detection & Vulnerability Remediation (VDVR) System........................................................................................................... 569

Qun Zhou

IT Service Management Automation—A Hybrid Methodology to Integrate and Orchestrate Collaborative Human Centric and Automation Centric Workflows......................................................................................... 574

Naga Ayachitula, Melissa Buco, Yixin Diao, Surendra Maheswaran, Raju Pavuluri, Larisa Shwartz, Chris Ward

Application and Industry Paper Session 15

E-Tendering with Web Services: A Case Study on the Tendering Process of Building Construction ............ 582

Lai Sau Chan, Dickson K. W. Chiu, Patrick C. K. Hung

Efficient Internet Chat Services for Help Desk Agents....................................................................................... 589

Zon-Yin Shae, Dinesh Garg, Rajarshi Bhose, Ritabrata Mukherjee, Sinem G"{u}ven, Gopal Pingali

Brave New Web: Emerging Design Principles and Technologies as Enablers of a Global SOA.......................... 597

Christoph Schroth, Oliver Christ
Application and Industry Paper Session 16

Policy-Based Automation to Improve Solution Engineering in IT Services ................................................. 605
Ronnie Sarkar, Murthy Devarakonda, Axel Tanner

An Enterprise Electronic Contract Management System Based on Service-Oriented Architecture ................. 613
Trieu C. Chieu, Thao Nguyen, Sridhar Maradugu, Thomas Kwok

Service-Oriented Laboratory Information Management System for Life Sciences Research.......................... 621
Sobha Mathew Tharayil, Ted Kalbfleisch, Anup Kumar

Application and Industry Paper Session 17

A Grid-Oriented Platform for Software Component Repository Based on Domain Ontology ....................... 628
Yutao Ma, Keqing He, Wei Liu, Jingbai Tian

Intelligent Document Gateway—A Service System Analysis ........................................................................ 636
Vikas Krishna, John Bailey, Ana Lelescu

Business-Activity Driven Search: Addressing the Information Needs of Services Professionals ....................... 644
Nithya Rajamani, Murthy Devarakonda, Yu Deng, Wlodek Zadrozny, Jyotishman Pathak

Services Computing Contest

A Distributed E-Healthcare System Based on the Service Oriented Architecture ........................................... 652
Firat Kart, Gengxin Miao, L. E. Moser, P. M. Melliar-Smith

Services Oriented Knowledge-Based Supply Chain Application .................................................................... 660
Wei Dai, Paul Moynihan, Juanqiong Gou, Ping Zou, Xi Yang, Tiedong Chen, Xin Wan

SOA Industry Summit

Leveraging Context Aware Services to Transform Evolving Telecom Industry Business Model ....................... 668
Sri Ramanathan, Ali Arsanjani, Abdul Allam

A Framework for Assessing Business Value of Service Oriented Architectures ............................................. 670
Robert Lagerström, Jonas Öhrström

Web Services Conversion ............................................................................................................................. 672
Samir Tout, Michael Higgins

Context Modeling to Enforce Interoperability in Web Service Definition ..................................................... 674
Shawn X. K. Hu, Xiaofeng Wang, Dan Martin

Migrating the IT Environment of a Governmental Institution to a SOA .......................................................... 676
Nicolas Biri, Pascal Bauler, Fernand Feltz, Pouriya Zarbaian, Kheira Acem

Case Study to Verify the Interoperability of a Service Oriented Architecture Stack ........................................ 678
Sujatha Kuppuraju, Aravind Kumar, Geetha Presenna Kumari

Supporting Heterogeneous Applications with Service Oriented Architecture ................................................. 680
Sujatha Kuppuraju, Kanchana Rao, Hitesh A. Bosamiya, Raghu Anantharamgachar, Subhojit Mallik

Compliance Enforcement for Service Process Flows ...................................................................................... 682
Hakan Hacigümüş

Web Service Dependency Discovery Tool for SOA Management .................................................................. 684
Sujoy Basu, Fabio Casati, Florian Daniel

xi
Work-in-Progress

From Web Services to Virtual Services—The Architecture and Patterns for 3D Services ........................................ 690
  Hong Cai, James Yeh, Hui Su

Variation Oriented Service Composition and Adaptation (VOSCA): A Work in Progress ........................................ 694
  N. C. Narendra, Karthikeyan Ponnalagu, Karthik Gomadam, Amit P. Sheth

Mechanisms to Book Services in an Adaptive Resource Management System ....................................................... 697
  Claudia Raihulet, Luigi Ubezio

Supporting Dynamic Updates of Componentized Services .......................................................................................... 699
  Xiaohui Xu, Linpeng Huang, Dejun Wang

The Business Model of “Software-as-a-Service” ........................................................................................................ 701
  Dan Ma

Coupling RDF/RSS, WSRP and AJAX for Dynamic Reusable Portlets: An Approach and a Use Case .................... 703
  Srinivas Padmanabhan, Krishnendu Kunti, Lipika Sahoo, Saurabh Bharti

Pattern Based Declarative Constraint Solution for Model-Driven Service Deployment ................................................ 711
  Jing Luo, Ying Li, Qiu Jie

A Practical Framework for Dynamic Composition on Enterprise Service Bus .......................................................... 713
  Soo Ho Chang, Jeong Seop Bae, Won Young Jeon, Hyun Jung La, Soo Dong Kim

Service Level Agreement Aware Workflow Scheduling .............................................................................................. 715
  Dmytro Dyachuk, Ralph Deters

Calculating the Business Importance of Entities in a Service-Oriented Enterprise .................................................... 717
  Amit Fisher, Fabiana Fournier, Dagan Gilat, Guy Rackham, Natalia Razinkov, Segev Wasserkrug

An Ontology for Modeling Life-Events ....................................................................................................................... 719
  Ilias Trochidis, Efthimios Tambouris, Konstantinos Tarabanis

A Novel Approach for Process Mining Based on Event Types .................................................................................. 721
  Changrui Ren, Lijie Wen, Jin Dong, Hongwei Ding, Wei Wang, Minmin Qiu

Automating Service Matchmaking Using Type Theory .............................................................................................. 723
  YuYu Yin, Ying Li, Shuiguang Deng, Li Kuang, Jian Wu, XuXue Sun, Jian Jiang, ZhaoHui Wu

Consultation Model Based Services Application Model and Its Charging Algorithm ................................................. 725
  Min Liu, Jun-Wei Yan

Service-Oriented Encapsulation of Manufacturing Resources .................................................................................... 727
  Lei Wu, Xiangxu Meng, Shijun Liu

Using Call-Context to Prevent the Emergence of Chaotic Workflow Behaviors in Overload Situations .................. 729
  Dmytro Dyachuk, Ralph Deters

Verifying Semantic Business Process Models in Inter-operation ................................................................................ 731
  George Koliadis, Aditya Ghose

Supporting Gene Expression Analysis Processes by a Service-Oriented Platform .................................................... 739
  Sebastian Richly, Dirk Habich, Maik Thiele, Sebastian Götz, Stefan Hartung

Author Index ................................................................................................................................................................. 747
