Foreword
SCCC 2014

These proceedings offer a written account of some of the best scientific contributions presented at the 33rd International Conference of the Chilean Computer Science Society (SCCC 2014) and some of its satellite workshops, such as the 3rd Workshop on Business Process Management (WBPM 2014), the 4th Workshop on Agents and Collaborative Systems (WACS 2014), the 4th Workshop on Distributed Systems and Parallelism (WSDP 2014), and the 6th International Workshop on Advanced Software Engineering (IWASE 2014). The conference and the satellite workshops were held in Talca, Chile, on November 8-14, 2014, hosted by Universidad Católica del Maule.

SCCC 2014 received 74 submissions from 13 different countries, out of which 42 were accepted for presentation at the conference (this represents an acceptance rate of 57%). Each submission was reviewed by 3 experts from the program committee (PC), which was formed by 62 computer scientists from Chile, Spain, Canada, USA, Colombia, Argentina and France.

This conference would never been successfully completed without the effort of many people. We would like to thank the authors for the quality of their submissions and their hard work. We are especially indebted to PC members for their efforts in ensuring a high-quality review and selection process. Finally, we would like to thank the local organizing committee for their advice and help in preparing and running the event.

SCCC 2014 was organized by the Chilean Computer Science Society (SCCC), and the Escuela de Ingeniería Civil Informática and Departamento de Computación e Informática at Universidad Católica del Maule.

Claudio Cubillos, Pontificia Universidad Católica de Valparaíso, Chile
SCCC 2014 President & Publication Chair

Angélica Urrutia Sepúlveda
SCCC 2014 General Chair
