## Section I: SERVICES 2009 Regular Sessions and Workshops

**Regular Session**

**Personal Identification Based on Sole Pressure Distribution Using a Hetero-core Optical Fiber Sensor Network for Personal Web Services** ................................................................. 1  
  *Shinichi Nose, Mituaki Shimono, Michiko Nishiyama, Tetuya Kon, Kazuhiro Watanabe, and Kazumasa Takami*

**The Development of Human-System Interactivity Metrics for Ubiquitous Service Applying User-Centered Design Methodology** ................................................................. 9  
  *Joobong Song, Keun Ryang Park, Sanghyun Kwon, Ji Hwan Lee, Myung Hwan Yun, and Joohwan Lee*

**Agent-Based Web Healthcare Systems for Real-Time Chronic Disease** ......................................................... 14  
  *Yupeng Zhang, Malrey Lee, and Thomas M. Gatton*
Constraint-Based Authorization Management for Mobile Collaboration

Yuqing Sun, Matthias Farwick, and Dickson K.W. Chiu

Web Services Based Multi-data Centers Knowledge Sharing for Autonomic Problem Determination and Remediation

Hoi Chan and Thomas Kwok

A Scheduling Method for Service Chain in Equipment Grid

Yuexuan Wang, Jie Yin, and Meizhi Hu

SOA Solutioning

BestRec: A Behavior Similarity Based Approach to Services Recommendation

Zicheng Huang, Jinpeng Huai, Hailong Sun, Xudong Liu, and Xiang Li

SOAR: An Extended Model-Based Reasoning for Diagnosing Faults in Service-Oriented Architecture

Soo Dong Kim and Soo Ho Chang

A Distributed Agent Coalition Algorithm for Web Service Composition

Hongxia Tong, Jian Cao, Shensheng Zhang, and Minglu Li

Building Interoperable 3D Virtual World Platforms with RESTful Web Services

Zhi-Cong Fang and Hong Cai

A Service-Oriented Approach for the Collaborative Simulation of Complex Engineering Systems

Hongwei Wang, Heming Zhang, and Aylmer Johnson

Fast Service Selection Using rete Network in Dynamic Environment

Minsoo Kim and Minkoo Kim

User Collaborative Semantic Web Service Matching for Legacy Application Integration—A Case Study

Hua Fang Tan, Rama Akkiraju, Anca-Andreea Ivan, Richard Goodwin, and Diane Knappenberger

Services Cup

SOA-Based Integration of Text Mining Services

Johannes Starlinger, Florian Leitner, Alfonso Valencia, and Ulf Leser

SAP Research Rooftop Marketplace: Putting a Face on Service-Oriented Architectures

Volker Hoyer, Florian Gilles, Till Janner, and Katarina Stanojevska-Slabeva

Standing Processes in Service-Oriented Environments

Steffen Preißler, Dirk Habich, and Wolfgang Lehner

Genesis—Dynamic Collaborative Business Process Formulation Based on Business Goals and Criteria

Ryan K.L. Ko, Andre Jusuf, and S.G. Lee
Web-FIM: Automated Framework for the Inference of Business Software Models .......................................................................................................................................................................130

Hesham H. Hallal, Arnaud Dury, and Alexandre Petrenko

Posr: A Comprehensive System for Aggregating and Using Web Services ..................................................139

Mohammed AbuJarour, Mircea Craculeac, Falko Menge, Tobias Vogel, and Jan-Felix Schwarz

Ph.D. Symposium

A Service-Oriented Grid Environment with On-demand QoS Support ..........................................................147

Gerhard Engelbrecht and Siegfried Benkner

SOA and Web Services for Leveraging Inter-organizational Integration in Travel and Tourism ..........................................................151

Anas Najdawi

IEEE 2009 Third Workshop on Web Services Testing (WS-Testing 2009)

A Model of Message-Based Debugging Facilities for Web or Grid Services ................................................155

Qiang Yue, Xiaoyi Lu, Zhiguang Shan, Zhiewei Xu, Haiyan Yu, and Li Zha

SOArMetrics: A Toolkit for Testing and Evaluating SOA Middleware .............................................................163

Xiang Li, Jinpeng Huai, Xudong Liu, Jin Zeng, and Zicheng Huang

FLTL-MC: Online High Level Program Analysis for Web Services ..............................................................171

Zhengwei Qi, Liang Liu, Fuyuan Zhang, Haibing Guan, Hao Wang, and Ying Chen

A Combinatorial Approach to Multi-session Testing of Stateful Web Services ...........................................179

Li Li and Wu Chou

Testing Web Services Composition Using the TGSE Tool ..............................................................................187

Tien-Dung Cao, Patrick Félix, Richard Castanet, and Ismail Berrada

Better Compliance Management Using Service Oriented Approach for Non-profit Organizations ..........................................................................................................................195

Zhixiong Chen and Ivan Arellan

International Workshop on Self Healing Web Services (SHWS 2009)

Periodic Checkpointing for Strong Mobility of Orchestrated Web Services ................................................203

Soumaya Marzouk, Aref Jmal Maâlej, Ismael Bouassida Rodriguez, and Mohamed Jmaiel

A Semantic Repository for Adaptive Services ................................................................................................211

Yamine Ait-Ameur

Using Stateful Activities to Facilitate Monitoring and Repair in Workflow Choreographies ..................................................219

J. Eder, J. Mangler, E. Mussi, and B. Pernici

A Practical Framework of Realizing Actuators for Autonomous Fault Management in SOA ..........................................................227

Hyun Jung La and Soo Dong Kim
Self-Diagnosis and Self-Regulation through Performance Monitoring and Tuning ................................................................. 235
  A. Noui-Mehidi

Enforcing User-Defined Management Logic in Large Scale Systems ................................................................. 243
  Srinath Perera and Dennis Gannon

IEEE 2009 Third International Workshop on Scientific Workflows (SWF 2009)

Towards Quality of Service in Scientific Workflows by Using Advance Resource Reservations ................................................................. 251
  Christoph Langguth, Paola Ranaldi, and Heiko Schuldt

Towards a Taxonomy of Provenance in Scientific Workflow Management Systems .................................................. 259
  Sérgio Manuel Serra da Cruz, Maria Luiza M. Campos, and Marta Mattoso

Accelerating Parameter Sweep Workflows by Utilizing Ad-hoc Network Computing Resources: An Ecological Example ................................................................. 267
  Jianwu Wang, Ilkay Altintas, Parvize R. Hosseini, Derik Barseghian, Daniel Crawl,
  Chad Berkley, and Matthew B. Jones

Kepler + MeDICi—Service-Oriented Scientific Workflow Applications ................................................................. 275
  Jared Chase, Ian Gorton, Chandrika Sivaramakrishnan, Justin Almquist, Adam Wynne,
  George Chin, and Terence Critchlow

Adapting the Galaxy Bioinformatics Tool to Support Semantic Web Service Composition ................................................................. 283
  Rui Wang, Douglas Brewer, Shefali Shastri, Srikalyan Swayampakula, John A. Miller,
  Eileen T. Kraemer, and Jessica C. Kissinger

Using Mediation to Achieve Provenance Interoperability .................................................................................. 291
  Tommy Ellqvist, David Koop, Juliana Freire, Cláudio Silva, and Lena Strömbäck

Analyzing the Gap between Workflows and their Natural Language Descriptions ................................................................. 299
  Paul Groth and Yolanda Gil

Reasoning on Scientific Workflows .................................................................................. 306
  Z. Lacroix, C.R.L. Legendre, and S. Tuzmen

Analysing Scientific Workflows: Why Workflows Not Only Connect Web Services ................................................................. 314
  Ingo Wassink, Paul E. van der Vet, Katy Wolstencroft, Pieter B.T. Neerinck,
  Marco Roos, Han Rauwerda, and Timo M. Breit

  Hasan Jamil and Aminul Islam

Ahlem Ben Younes and Leila Jemni Ben Ayed

New Execution Paradigm for Data-Intensive Scientific Workflows

Mahmoud El-Gayyar, Yan Leng, Serge Shumilov, and Armin Cremers

Business versus Scientific Workflows: A Comparative Study

Ustun Yildiz, Adnene Guabtni, and Anne H.H. Ngu

A Strategy for Provenance Gathering in Distributed Scientific Workflows

Anderson Marinho, Cláudia Werner, Sérgio Manuel Serra da Cruz, Marta Mattoso, Vanessa Braganhoto, and Leonardo Murta

Provenance Information Model of Karma Version 3

Bin Cao, Beth Plale, Girish Subramanian, Ed Robertson, and Yogesh Simmhan

CBR Based Workflow Composition Assistant

Eran Chinthaka, Jaliya Ekanayake, David Leake, and Beth Plale

GEO-SEED: A Metadata Repository for Geosciences Web Service Discovery

Pearl Brazier, Artem Chebotko, Ann Q. Gates, and Leonardo Salayandia

Scientific Workflows for the Enterprise

Alonzo Jarman

Using Ontologies to Support Deep Water Oil Exploration Scientific Workflows

Daniel de Oliveira, Luiz Cunha, Luiz Tomaz, Vinicius Pereira, and Marta Mattoso

**International Workshop on Web Services Performance (WSP 2009)**

Data Loading and Caching Strategies in Service-Oriented Enterprise Applications

Matthieu-P. Schapranow, Jens Krueger, Vadym Borovskiy, Alexander Zeier, and Hasso Plattner

Ensuring Time in Service Composition

E. del Val, M. Navarro, V. Julian, and M. Rebollo

A Model for Web Services Data in Support of Web Service Composition and Optimization

Chien-Hsiang Lee and San-Yih Hwang
Third International Workshop on Web Service Composition and Adaptation (WSCA 2009)

A Constraint-Based Approach for Developing Consistent Contracts in Composite Services ................................................................. 392
   Basem Suleiman and Fuyuki Ishikawa

Solution Reuse for Service Composition and Integration ................................................................. 400
   Hamid R. Motahari-Nezhad, Jun Li, Bryan Stephenson, Sven Graupner,
   and Sharad Singhal

Building an On-line Geospatial Analysis System with AJAX and Web Services ................................................................. 408
   Weiguo Han, Liping Di, Peisheng Zhao, and Xiaoyan Li

Fast and Scalable Semantic Web Service Composition Approach Considering Complex Pre/Postconditions ................................................................. 414
   Peter Bartalos and Maria Bieliková

Dynamically Changing Workflows of Web Services ................................................................. 422
   M. Hepner, R. Baird, and R. Gamble

Automated Web Service Composition: A Decentralised Multi-agent Planning Architecture ................................................................. 430
   Mohamad EL Falou, Maroua Bouzid, Abdel-Illah Mouaddib, and Thierry Vidal

JaxSON: A Semantic P2P Overlay Network for Web Service Discovery ................................................................. 438
   Mario Bisignano, Giuseppe Di Modica, and Orazio Tomarchio

Modeling Service Composition and Exploring its Characteristics ................................................................. 446
   Jiehan Zhou, Jukka Riekki, and Mika Ylianttila

Section II: 2009 International Conference on Cloud Computing (CLOUD-I 2009)

SOA Industry Summit

Service-Enabling Enterprise Legacy Applications with Assurance ................................................................. 452
   Shrikant Mulik, Kavindra Sharma, and Manish Godse

Proprietary Data Transformation and Modeling in a Web Service-Based Integration Environment ................................................................. 454
   Shawn X.K. Hu and Tony C. Shan

Unraveling the Reality of SOA in Integration Environments ................................................................. 456
   Gandhi Sivakumar, Faried Abrahams, and Kerard Hogg

ProtocolDB: A Semantic Workflow Solution for Innovative Translational Research ................................................................. 459
   Z. Lacroix and Spyro Mousses

Service Evolution Lifecycle for Service Oriented Architecture ................................................................. 461
   R. William Maule and William C. Lewis

Cogito: An Adaptive Business Process Framework ................................................................. 463
   Jun-Jang Jeng and Henry Chang
SIMPLE: Template Based Service Integration .................................................................465
Jim Laredo, Jeaha Yang, Jun-Jang Jeng, and Gabriela Pérez
Web Service Validation Enabling Test-Driven Development of Service-Oriented Applications .................................................................467
Paul Hamill, David Alexander, and Svetlana Shasharina
Towards a Model-Driven Approach for Planning a Standard-Based Migration of Enterprise Applications to SOA .................................................................471
Mohammed A. Aboulsamh
Service-Oriented Architecture Roadmapping ...............................................................475
Tony C. Shan and Winnie W. Hua
From Portfolio Management to Portfolio Optimization—Application Portfolio Management in the SOA Era .................................................................477
Jacek P. Maryan
Implementing Context Aware Services in a Telecom SOA Infrastructure ..................482
Abhijit Sur, Ali Arsanjani, and Sri Ramnathan
IEEE 2009 Third International Workshop on Web X.0 (WebX 2009)
Building a User Friendly Service Dashboard: Automatic and Non-intrusive Chaining between Widgets .................................................................484
Nassim Laga, Emmanuel Bertin, and Noel Crespi
Ontology-Based Semantic Blog Model for Recommending Blog Resource to Interest Communities .................................................................492
Kyung-Ah Yang, Ronghau Xu, Jae-Dong Yang, and Wan Choi
Towards Lightweight Application Integration Based on Mashup ................................500
Wei Ye, Wenhui Hu, Wen Zhao, Xin Gao, Shikun Zhang, and Lifu Wang
2009 International Workshop on Service-Oriented Community Coordinated Multimedia (SCCM 2009)
Automating Workflows with Service Oriented Media Applications ................................507
D. Van der Weken, S. Van Assche, D. Clabaut, S. Desmet, and B. Volckaert
Existence Dependency-Based Domain Modeling for Improving Stateless Process Enactment .................................................................515
Raf Haesen, Monique Snoeck, Wilfried Lemahieu, and Stephan Poelmans
Modeling Delegation in Requirements-Driven Trust Framework ................................522
Wattana Viriyasitavat
The Third International Workshop of Software Engineering for Adaptive Service-Oriented Systems (SEASS 2009)

A Distributed Problem Solving Approach for Service-Oriented Computing
Agnes F.N. Lumala and José Ghislain Quenum ................................................................. 530

N-to-1 SOAP Requests Bundling for Efficient Software Service Delivery
Feng-Lin Li, Cheng Qian, WeiYi Liu, and Chi-Hung Chi .......................................................... 539

From Organizational Requirements to Service Choreography
Ayman Mahfouz, Leonor Barroca, Robin Laney, and Bashar Nuseibeh .................................. 546

Verifying WS-CDL-Based Web Services Collaboration by Model Checking
Zuling Kang and Hongbing Wang .................................................................................................. 554

Model-Driven Engineering of Service Orchestrations
Marco Brambilla, Matteo Dosmi, and Piero Fraternali ............................................................. 562

Policy Controlled Message Transformations
Martin Eggenberger, Darrell Thurmond, and Nupur Parkash .................................................. 578

Toward the Development of Cross-Platform Business Applications
via Model-Driven Transformations
Rama Akkiraju, Tilak Mitra, Nilay Ghosh, Dipankar Saha, Usha Thulasiram, and Soham Chakraborty ................................................................. 585

Flexible Service Selection Optimization Using Meta-Metrics
Roland Ukor and Andy Carpenter ............................................................................................... 593

Ensuring Correctness of Dynamic Reconfiguration in SOA Based Software
YuYu Yin, Ying Li, JianWei Yin, ShuiGuang Deng, and Wei Shi .................................................. 599

Gossip-Based Workload Prediction and Process Model for Composite
Workflow Service
Weihong Song, Dejun Jiang, Chi-Hung Chi, Pengfei Jia, Xintong Zhou, and Gen Zou ...................... 607

A Task-Oriented Framework for Automatic Service Composition
Vuong Xuan Tran and Hidekazu Tsuji ............................................................................................. 615

2009 IEEE International Workshop on Web Services Security Management (WSSM 2009)

Types for Workflow Access Control in Web Service Context
Yahui Lu and Li Zhang .................................................................................................................. 621

A Model to Verify Quality of Protection Policies in Composite Web Services
Davi Böger, Joni Fraga, Paulo Mafra, and Michelle S. Wangham .................................................. 629

WS-Certificate
Ernesto Damiani, Nabil El Ioini, Alberto Sillitti, and Giancarlo Succi ........................................... 637
Adaptive Rule Loading and Session Control for Securing Web-Delivered Services ................................................................. 645
Yu Zhang, Vugraman Sreedhar, Lin Luo, and Shun Xiang Yang

Quality of Security Service for Web Services within SOA ................................................................. 653
Hany F. El Yamany, Miriam A.M. Capretz, and David S. Allison

**International Workshop on Cloud Services (IWCS 2009)**

Queuing Theoretic and Evolutionary Deployment Optimization with Probabilistic SLAs for Service Oriented Clouds ................................................................. 661
Hiroshi Wada, Junichi Suzuki, and Katsuya Oba

Towards BPEL in the Cloud: Exploiting Different Delivery Models for the Execution of Business Processes ................................................................. 670
Tobias Anstett, Frank Leymann, Ralph Mietzner, and Steve Strauch

A Pattern-Based Design Approach for Subscription Management of Software as a Service ................................................................. 678
Zhongbo Jiang, Wei Sun, Kai Tang, Jane L. Snowdon, and Xin Zhang

Crowdsourcing for Enterprises ................................................................. 686
Maja Vukovic

Service Performance and Analysis in Cloud Computing ................................................................. 693
Kaiqi Xiong and Harry Perros

Intelligent Workload Factoring for a Hybrid Cloud Computing Model ................................................................. 701
Hui Zhang, Guofei Jiang, Kenji Yoshihira, Haifeng Chen, and Akhilesh Saxena

Design and Evaluation of Opal2: A Toolkit for Scientific Software as a Service ................................................................. 709
Sriram Krishnan, Luca Clementi, Jingyuan Ren, Philip Papadopoulos, and Wilfred Li

**Third International Workshop on Service Intelligence and Computing (SIC 2009)**

Supporting Bioinformatic Experiments with a Service Query Engine ................................................................. 717
Xuan Zhou, Shiping Chen, Athman Bouguettaya, and Kai Xu

A Hybrid Web Service Selection Approach Based on Singular Vector Decomposition ................................................................. 724
Shan-Liang Pan, Qing-Jiao Mao, and Ying-Xin Zhang

Attributed Publication and Selection for Web Service-Based Distributed Systems ................................................................. 732
Michael Brock and Andrzej Goscinski

Composite Service Selection Based on Dot Pattern Mining ................................................................. 740
Mingwei Zhang, Bin Zhang, Jun Na, Xizhe Zhang, and Zhiliang Zhu

User Experiences on a Community-Based Music Voting Service ................................................................. 747
Timo Koskela, Janne Julkunen, Ville Keränen, Nonna Kostamo, and Mika Ylianttila

Adapting Web Services for Multiple Devices: A Model-Driven, Aspect-Oriented Approach ................................................................. 754
Guadalupe Ortiz and Alfonso García de Prado
Replication Decision Mechanism for Service-Oriented Multi-agent System ................................................. 762
  Dong Yeol Lee, Seung Yeop Shin, and Hee Yong Youn
Static-Discovery Dynamic-Selection (SDDS) Approach to Web Service
Discovery ......................................................................................................................................................... 769
  Atousa Pahlevan and Hausi A. Müller

IEEE Workshop on Software and Services Maintenance and Management (SSMM 2009)

WS-CHMA: A Composite-Pattern Based Hierarchical WS-Management Architecture ........................................ 773
  Chuan Xiao, ZhiHui Lv, and ShiYong Zhang
Concurrency Control for Transactional Composite Services ............................................................................ 781
  Xinfeng Ye and Yi Chen
Model-Based Monitoring and Policy Enforcement of Services ......................................................................... 789
  Xiaoying Bai, Yongli Liu, Lijun Wang, Wei-Tek Tsai, and Peide Zhong
Using Proportional-Integral-Derivative Control in Self-Healing Adaptive Content Systems ............................................. 797
  Henri Q. Naccache and Gerald C. Gannod
Rule-Based Semi Automatic Web Services Composition .................................................................................. 805
  Ehtesham Zahoor, Olivier Perrin, and Claude Godart
Scalable Self-Governance Using Service Communities as Ambients ................................................................. 813
  Martin Randles, A. Taleb-Bendiab, and David Lamb
Compatibility Checking of Heterogeneous Web Service Policies Using VDM++ .................................................. 821
  Quan Z. Sheng, Jian Yu, Zakaria Maamar, Wei Jiang, and Xitong Li

Author Index ..................................................................................................................................................... 829
