MW-1 Mini-Workshop: Deep Space Communications: Today & Tomorrow – Part I
Chairs: Christopher Krupiarz, Manikantan Ramadas

Overview of Current Space Network Activities
Adrian Hooke

Relay Operations for the Mars Exploration Rovers
Electra
Tom Jedrey

Lunar Precursor and Robotic Program-2 (LPRP-2)

DSN Arrays
Mark Gatti

LTP/ A Priority Paradigm for Deep-Space Applications
Manikantan Ramadas

Future Lunar Architecture
Keith Scott

Future Mars Architecture
Christopher Krupiarz

DTN Lake Sensor Network
Stephen Farrell

Towards Interplanetary Grids
Laurent Lefevre and Jean-Patrick Galas

Agoric Architectural Styles for Deep Space Exploration
Rohit Khare
