Welcome to SNPD 2010!

The 11th International Conference on Software Engineering, Artificial Intelligence, Networking, and Parallel/Distributed Computing (SNPD 2010) is sponsored by the International Association of Computer and Information Science (ACIS) and is hosted by the University of Greenwich. This conference brings together researchers, scientists, engineers, industry practitioners, and students to discuss, encourage and exchange new ideas, research results, and experiences on all aspects of Software Engineering, Artificial Intelligence, Networking, and Parallel/Distributed Computing.

The University of Greenwich is located in the London Borough of Greenwich, London, England. The main campus where SNPD2010 is hosted is located on the grounds of the Old Royal Naval College, a central location within the Maritime Greenwich, a UNESCO World Heritage Site.

SNPD2010 received papers from the scientific community representing more than 20 different countries. Each paper was reviewed by three or more members of the International Program Committee and additional reviewers. A large number of the papers were high quality submissions. After the completion of the peer review process, 53 papers were selected for presentation at the conference.

We would like to express our sincere appreciation to the following people for contributing to the success of this conference: Professor Roger Lee, the CEO of International Association for Computer and Information Science; Dr Liz Bacon and Dr Wencai Du, the Conference Chairs; Professor Lynn Andrea Stein and Professor Huaikou Miao, our Keynote Speakers; the Publicity Chairs; the Local Management Chairs; the members of the International Program Committee and secondary reviewers who contributed a great amount of their time to evaluate the submissions to maintain high quality of the conference; the session chairs who preside over the sessions; all the authors, attendees, presenters who really made this conference possible and successful; and, finally, the student volunteers from the University of Greenwich, the administrative and technical staff at both the ACIS Headquarters and the School of Computing and Mathematical Sciences of the University of Greenwich, and the editorial staff at the IEEE Computer Society.

We hope you enjoy the conference, and enjoy staying at Greenwich!
