# Table of Contents

**KEYNOTE**  
Novice and Expert, How Are They Programming Differently?  
*Simon Xu* .................................................................................................................. 1  
VMKit: Improving Design and Performance of Managed Runtime Environments  
*Bertil Folliot* ............................................................................................................. 3

**ALGORITHMS, ARTIFICIAL INTELLIGENCE**  
Dynamic Artificial Immune System and its application to File Transfer Scheduling Optimization  
*Milad Dastan Zand, Mohammad Kalantari, Shahram Golzari* .................................. 5  
Feature Selection Method Based on Across Centroid for Text Categorization  
*Jieming Yang, Zhiying Liu, Zhaoyang Qu, Jing Wang* ........................................... 11

**ALGORITHMS COMMUNICATION SYSTEMS**  
An Efficient Structure for LKH Key Tree on Secure Multicast Communications  
*Sakamoto Naoshi* .................................................................................................... 17

**ARTIFICIAL INTELLIGENCE**  
OntoSSN: ScientIFic Social Network ONTOlogy  
Collaborative filtering recommendation algorithm based on item attributes  
*Mengxing Huang, Longfei Sun, Wencai Du* .......................................................... 29  
New Approach on PCA-Based 3D Face Recognition and Authentication  
*Taher Khadhraoui, Faouzi Benzarti, Hamid Amiri* .................................................. 41  
Hierarchical speech recognition system using MFCC feature extraction and Dynamic Spiking RSOM  
*Tarek Behi, Najet Arous, Noureddine Ellouze* ......................................................... 41

**COMMUNICATION SYSTEMS AND NETWORKS**  
Converting PCAPs into Weka Mineable Data  
*Charles Fowler, Robert J. Hammell II* ...................................................................... 47  
Microcredit Risk Assessment using Crowdsourcing and Social Networks  
*Tofig Hasanov, Motoyuki Ozeki, Natsuki Oka* .......................................................... 53

**COMPONENT-BASED SOFTWARE ENGINEERING**  
Non-functional Properties Aware Configuration Selection in Component-based Systems  
*Mohammad Charaf Eddin, Zoubir Mammeri* ............................................................. 59  
Effective Domain Modeling for Mobile Business AHMS (Adaptive Human Management Systems) Requirements  
*Haeng-Kon Kim* ...................................................................................................... 67  
*Hassan Almari, Clive Boughton* ............................................................................. 77

**CRYPTOGRAPHY AND NETWORK SECURITY**  
Analysis and Acceleration of NTRU Lattice-Based Cryptographic System  
*Tianyu Bai, Spencer Davis, Juanjuan Li, Hai Jiang* ..................................................... 83
Survey of Attribute Based Encryption
   Zhi Qiao, Shuwen Liang, Spencer Davis, Hai Jiang ............................................................... 89
Training of Intelligent Intrusion Detection System Using Neuro Fuzzy
   Biswajit Panja, Olugbenga Ogugbanwo, Priyanka Meharia .................................................. 95
Error Value Driven Fault Analysis Attack
   Masaya Yoshikawa, Hikaru Goto, Kensaku Asahi .................................................................. 101

DATA MINING AND MACHINE LEARNING
A Machine Learning Technique for Predicting the Productivity of Practitioners from Individually Developed Software Projects
   Cuauhtemoc Lopez-Martin, Arturo Chavoya, Maria Elena Meda-Campaña .................................. 105
Can Text Mining Technique be used as an Alternative Tool for Qualitative Research in Education?
   Carl Lee, Chin-I Cheng, Akilu Zeleke ...................................................................................... 111
Generation of Reducts Based on Nearest Neighbor Relation
   Naohiro Ishii, Ippie Torii, Toyoshiro Nakashima, Kazunori Iwata ........................................... 117
Scalable Bootstrap Clustering for Massive Data
   Haocheng Wang, Fuzhen Zhuang, Xiang Ao, Qing He, Zhongzi Shi ....................................... 123
Security and Privacy Protocol for Emerging Smart RFID Applications
   Mohammad Fal Sadikin, Marcel Kyas .......................................................................................... 129
   Nachai Limsettho, Hideaki Hata, Ken-Ichi Matsumoto ............................................................. 137
New Data Warehouse Design Approach Based on Principal Component Analysis
   Tehourski Wafa, Wahiha Karaa, Henda Ben Ghezela................................................................. 143
Using Client-Side Access Partitioning for Data Clustering in Big Data Applications
   Dapeng Liu, Shaochun Xu, Zengdi Cui ..................................................................................... 149

IMAGE, SPEECH, AND SIGNAL PROCESSING
Post Processing for Dense Stereo Matching by Iterative Local Plane Fitting
   Hongbo Lu, Haibo Meng, Kun Du, Yuan Sun, Yuanchao Xu, Zhimin ........................................ 155

INFORMATION ASSURANCE
A Theoretical Exploration of the Impact of Packet Loss on Network Intrusion Detection
   Sidney C. Smith, Robert J. Hammell II, Travis W. Parker, Lisa M. Marvel ................................. 161
Analysis of an ID-based Proxy Signature Scheme Without Trusted PKG and a Proxy Blind Multi-signature Scheme Without Trusted PKG and a Proxy Blind Multi-signature Scheme
   Sha Limin .................................................................................................................................. 167
Developing and Building a Quality Management System Based on Stakeholder Behavior into Enterprise Architecture
   Dominic M. Mezzanotte, Sr, Josh ............................................................................................... 171

INTERNET TECHNOLOGY AND APPLICATIONS/ WEB-BASED APPLICATIONS
A Framework for Mobile eLearning (mLearning) with Analytical Decision Model
   Jahangir Dewan, Morshed Chowdhury ..................................................................................... 177

MOBILE/WIRELESS/AD-HOC NETWORKS
Jade: An Efficient Energy-aware Computation Offloading System with Heterogeneous Network Interface Bonding for Ad-hoc Networked Mobile Devices
   Hao Qian, Daniel Andresen .................................................................................................... 183
An Energy Balanced Topology Construction Protocol for Wireless Sensor Networks

Soumya Saha, Lifford McAulachlan .......................................................................................................................... 191

Ensuring the Integrity and Non-Reputation of Remitting E-Invoices in Conventional Channels with Commercially Available NFC Devices

Shi-Chung Jeaung, Yen-Chung Tseng, Shih-Chieh Huang, Guan-Heng Chen, Chih-Teng Tseng . 197

NEURAL NETWORKS GENETIC ALGORITHMS
On Simplification of Chaotic Neural Network on Incremental Learning

Toshinori Deguchi, Toshiki Takahashi, Naohiro Ishii .......................................................................................... 203

PARALLEL AND DISTRIBUTED COMPUTING
AES-128 ECB Encryption on GPUs and Effects of Input Plaintext Patterns on Performance

Ayaz ul Hassan Khan, Mayez Al-Mouhamed, Anas Almousa, Allam Fatayar, Abdul Rahman Ibrahim, Abdul Jabbar Siddiqui .................................................................................................................. 207

Optimizing MapReduce with Low Memory Requirements for Shared-Memory Systems

Yasong Zheng, Yuanchao Xu, Hailo Meng, Xiaochun Ye, Lingjun Fan, Futaq Miao, Dongrui Fan ......................... 213

Padding Free Bank Conflict Resolution for CUDA-Based Matrix Transpose Algorithm

Ayaz ul Hassan Khan, Mayez Al-Mouhamed, Allam Fatayar, Anas Almousa, Abdullahman Baqais, Mohammed Assayony ................................................................. 219

Unbinds Data and Tasks to Improving the Hadoop Performance

Kun Lu, Dong Dai, Xuehai Zhou, Mingming Sun, Changlong Li, Hang Zhuang .......................................................... 225

High Performance and Grid Computing with Quality of Service Control

Sadiq M. Sait, Raed Al-Shaikh .......................................................................................................................... 231

SOFTWARE MANAGEMENT
Refinement/Verification of Early Stage Probabilistic Software Project Schedules in the Planning Stage

Donghwoon Kwon, Robert J. Hammell .............................................................................................................. 239

SOFTWARE SPECIFICATION ARCHITECTURE
A Dialogue-Based Framework for the User Experience Reengineering of a Legacy Application

Angelo Martella, Roberto Paiano, Andrea Pandurino .............................................................................................. 245

A Requirements Description Language pLSCs for Probabilistic Branches and Three-Stage Events

Jinyu Kai, Huaikou Miao, Honghao Gao ................................................................................................................. 251

Design Patterns Applied for Networked First Person Shooting Game Programming

Junfeng Qu, Yong Wei, Yinglei Song ..................................................................................................................... 257

Software Development Concerns in the Building of Service-Oriented Based Enterprise Systems

Chia-Chu Chiang .................................................................................................................................................. 263

Strategy-Guided Requirements Development and Validation

Xiaofeng Cui, Richard Paige ............................................................................................................................ 269

SOFTWARE TESTING VISUAL AND MULTIMEDIA COMPUTING
Test Image Generation using Segmental Symbolic Evaluation for Unit Testing

Tahir Jameel, Lin Mengxiang, Li He, Hou Xiaomei ............................................................................................... 275

SPECIAL SESSION 1: ANALYSIS, EVALUATION, AND USAGE OF WEB INFORMATION, SYSTEM BEHAVIORS, AND HUMAN ACTIONS
Consideration of Cross-validation in Estimating Objective Scores of Answer Statements Posted at QA Sites

Yokoyama Yuya, Hochin Teruhisa, Nomiya Hiroki ............................................................................................... 281
Considerations on Pauses and Fundamental Movements for Transmitting Traditional Skills  
Teruhisa Hocchin, Hiroki Nomiya ................................................................. 287
The Analysis Method Focusing on Peaks of Darkness for the Impression Evaluation Method by Space  
Shunsuke Akai, Teruhisa Hocchin, Hiroki Nomiya ........................................ 293

SPECIAL SESSION 2: DATA MINING FOR INFO-COMMUNICATION NETWORKS AND SERVICE DIFFUSION
An Improvement of Micro Area Selection Technique for the Diffusion of ICT Infrastructure  
Motoi Iwashita, Akiyuki Iwaoe, Takeshi Kurosawa, Ken Nishimatsu ............... 307
Risk Assessment Quantification in Life Log Service  
Shigeaki Tanimoto, Ken Takahashi, Taro Yabuki, Kazuhiko Kato, Motoi Iwashita, Hiroyuki Sato, Atsushi Kanai ................................................................. 313

SPECIAL SESSION 3: EXPERIENCES OF SOFTWARE ENGINEERING
A proposal of Cloud-based Home Network System for Multi-Vendor Services  
Satoshi Takatori, Shinsuke Matsumoto, Sachio Saiki, Masahide Nakamura .......... 319
A Rule-Based Framework for Managing Context-Aware Services Based on Heterogeneous and Distributed Web Services  
Hiroyuki Takatsuka, Sachio Saiki, Shinsuke Matsumoto, Masahide Nakamura ........ 325
An Obfuscation Method to Build a Fake Call Flow Graph by Hooking Method Calls  
Kazumasa Fukuda, Haruaki Tamada ........................................................... 331
Brain Activity Measurement during Program Comprehension with NIRS  
Ikutani Yoshikazu, Uwano Hideyuki ......................................................... 337
Designing and Implementing Service Framework for Virtual Agents in Home Network System  
Hiroyasu Horiuchi, Sachio Saiki, Shinsuke Matsumoto, Masahide Nakamura ........ 343
Pitfalls of Analyzing a Cross-company Dataset of Software Maintenance and Support  
Masateru Tsunoda, Kenichi ................................................................. 349
Toward A Dynamic Analysis Technique to Locate Framework Misuses That Cause Unexpected Side Effects  
Izuru Kume, Masahide Nakamura, Naoya Nitta, Etsuya Shibayama ................. 355
Using Goal Net to Model User Stories in Agile Software Development  
Jun Lin, Han Yu, Zhiqi Shen, Chunyan Miao .......................................... 361

SPECIAL SESSION 4: THEORY AND PRACTICE OF INTELLECTUAL SOFTWARE
A Data Structure for Triangular Dissection of Multi-Resolution Images  
Taiyou Kikuchi, Koichi Anada, Shintaro Koka, Youzou Miyadera, Takeo Yaku ........ 367
A Source Code Plagiarism Detecting Method Using Alignment with Abstract Syntax Tree Elements  
Kikuchi Hiroshi, Goto Takaaki, Wakatsuki Mitsuo, Nishino Tetsuro ................. 375
An Application of 3D Spiral Visualization to the Uchida-Kraepelin Psychodiagnostic Test  
Zhuang Heliang, Chieko Kato, Futoshi Sugimoto, Kensei Tsuchida .................. 381
Multisensory Images Evoked by Olfactory Stimuli  
Kazuyoshi Ichihashi, Hideki Ichihashi ................................................... 387
Software Ontology Design to Support Organized Open Source Software Development  
Mahfuzus Salam Khan, Anwarus Salam Khan, Takaaki Goto, Tetsuro Nishino, Narayan Debnath ................. 393

SPECIAL SESSION 5: SIGNAL PROCESSING FOR SOCIAL WELFARE
Applications of Ultrasonic Sensors and Obrid-Sensor in Safety Confirmation System for Elders  
Shenglin Mu, Shota Nakashima, Kanya Tanaka ........................................ 399
Detection Range Fitting of Slit Type Obrid-Sensor  
Shota Nakashima, Shenglin Mu, Tatsuya Ichikawa, Hiromasa Tomimoto, Shintaro Okabe, Kanya Tanaka, ...
Development of Input Assistance Application for Mobile Devices for Physically Disabled
   Naruki Shirahama, Yuki Sakuragi, Satoshi Watanabe, Naofumi Nakaya, Yukio Mori, Kazunori Miyamoto... 415
Development of Leaving-bed Detection System to Prevent Midnight Prowl
   Yuhki Takahashi, Yuhki Kitazono, Shota Nakashima ................................................................. 417
One Dimensional Ring Type Growing SOM with Asymmetric Neighborhood Function and its Application to a
   Hand Shape Instruction Learning System
   Takashi Kuremoto, Takuhiro Otani, Masanao Obayashi, Kunikazu Kobayashi, Shingo Mabu.............. 423
Proposal of Eye-gaze Recognize Method for Input Interface without Infra-red Ray Equipment
   Kazuki Fukushima, Naruki Shirahama ................................................................. 429

SPECIAL SESSION 6: SOFTWARE TESTING 1
An Efficient Reduction Approach to Test Suite
   Pan Liu ..................................................................................................................... 435
Dynamic Test Case Prioritization based on Multi-objective
   Xiaolin Wang, Hongwei Zeng ..................................................................................... 441
Modeling Web Application for Cross-browser Compatibility Testing
   Xinxin Li, Hongwei Zeng ......................................................................................... 447
VM scheduling strategies based on artificial intelligence in Cloud Testing
   Yang Zheng, Lizhi Cai, Shidong Huang, Zhihong Wang ................................................... 453
A Self-tuned Bat Algorithm for Optimization in Radiation Therapy Treatment Planning
   Georgios Kalantzis, Yu Lei ...................................................................................... 461
Big Data in Memory: Benchmarking In Memory Database Using the Distributed Key-Value Store for
   Machine to Machine Communication
   Michiaki Iwazume, Takahiro Iwase, Kouji Tanaka, Hideaki Fujii, Makoto Hijiya, Hiroshi Haraguchi...... 467

Author Index 474
