Message from Program Chairs

Welcome to Las Vegas!

We feel honored in inviting you, the learned participants, to take part in the 15th IEEE/ACIS International Conference on Software Engineering, Artificial Intelligence, Networking, and Parallel/Distributed Computing (SNPD 2014) on behalf of the International Association of Computer and Information Science (ACIS). SNPD is a forum that brings together researchers, scientists, engineers, industry practitioners, and students to present their original work, discuss, encourage and exchange new ideas, research results, and experiences on all aspects of Software Engineering, Artificial Intelligence, Networking, and Parallel/Distributed Computing.

SNPD 2014 received papers from the scientific community representing more than 20 different countries. Three or more members of the Program Committee and additional reviewers were assigned to review each paper. A large number of the papers were of high quality. After the completion of the peer review process, over 140 papers were selected for presentation at the conference.

We would like to express our sincere appreciation to the following people for contributing to the success of this conference: Professor Roger Lee, the General Chair of SNPD 2014 and the CEO of the International Association for Computer and Information Science (ACIS) for his guidance and care; the Publicity Chairs; the Finance Chair; and the members of the Program Committee and the reviewers who contributed a great amount of their time to evaluate the submissions to maintain high quality of the conference; the special session organizers who manage their sessions; the session chairs who preside over the sessions; all the authors, attendees, presenters who really made this conference possible.

We hope you enjoy the conference, and enjoy staying at Las Vegas!

SNPD 2014 Program co-Chairs

Ju Yeon Jo, University of Nevada-Las Vegas, USA
Satoshi Takahashi, University of Electro-Communications, Japan

June–July 2014
