Message from the Program Chairs

TrustCom 2014

On behalf of the Program Committee of the 13th IEEE International Conference on Trust, Security and Privacy in Computing and Communications (TrustCom 2014), we would like to welcome you to join the conference in Beijing, China.

TrustCom 2014 aims at bringing together researchers and practitioners in the world from both academia and industry that are working on trusted computing and communications in computer systems and networks. The conference will feature keynote speeches, a panel, technical presentations, symposiums and workshops, where the technical presentations from both the research community and industry will cover a very broad scope of topics, including trust, security, privacy, reliability, dependability, survivability, availability, and fault tolerance.

TrustCom 2014 received 230 submissions for the main conference. All submissions were rigorously reviewed. The program committee consisted of 122 reviewers. Based on the review results, 73 papers were selected for oral presentation at the conference, giving an acceptance rate of 31.7%.

We would like to offer our gratitude to the Steering Committee Chairs Guojun Wang and Laurence T. Yang, the General Chairs Jiaguang Sun and Ivan Stojmenovic, and the Submission Chair Xiaolong Zheng for their excellent support and invaluable suggestions that contribute to the success of the final program. In particular, we would like to thank all the researchers and practitioners who submitted their manuscripts, and thank the Program Committee members and the additional reviewers for their tremendous efforts and timely reviews.

We sincerely hope that the conference will provide a great opportunity for you to share your brilliant ideas with each other. Enjoy the conference, both technically and socially.

Yunhao Liu, Tsinghua University, China
Nei Kato, Tohoku University, Sendai, Japan
Keqiu Li, Dalian University of Technology, China
