Tutorials and Workshops

Tutorials

1. Applying Virtual Reality to Engineering Design, Analysis, and Manufacturing
   S. Jayaram

2. The Art and Science of 3D Interaction
   Doug A. Bowman, Ernst Kruijff, Joseph LaViola, and Ivan Poupyrev

3. VR in Medicine
   K. Vosburgh and G. Burdea

4. An Introduction to Programming AR and VR: Application in Java 3D
   Henry A. Sowizral and David Nadeau

5. The Application of Virtual Environments for Neuropsychological Assessment and
   Cognitive Rehabilitation
   Albert A. Rizzo and J. Galen Buckwalter

   David Luebke, Martin Reddy, and Benjamin Watson

7. Avatars and Autonomous Virtual Humans in Virtual Environments
   Nadia Magnenat-Thalmann and Daniel Thalmann

Workshops

Workshop on Virtual Reality in the Geosciences
   David Chen, University of Houston

Distributed Systems Aspects of Sharing a Virtual Reality
   Michael Capps, Naval Postgraduate School
   Chris Greenhalgh, University of Nottingham
