## Contents

### Frontmatter

**Message from the Chairs** ................................................................. iii

### Keynote

**Large Scale Clone Detection, Analysis, and Benchmarking: An Evolutionary Perspective (Keynote)**  
Chanchal K. Roy — *University of Saskatchewan, Canada* ........................................... 1

### Clone Analysis

**Are There Functionally Similar Code Clones in Practice?**  
Verena Käfer, Stefan Wagner, and Rainer Koschke — *University of Stuttgart, Germany; University of Bremen, Germany* .......... 2

**Structural Clones: An Evolution Perspective**  
Jaweria Kanwal, Hamid Abdul Basit, and Omaiza Maqbool — *Quaid-i-Azam University, Pakistan; Lahore University of Management Sciences, Pakistan* .......................................................... 9

**Generated Code in Studies on Clone Rates**  
Rainer Koschke and Moritz Weinig — *University of Bremen, Germany* ............................................. 16

### Cloning Applications: Code Generation and Software Quality Metrics

**On the Characteristics of Buggy Code Clones: A Code Quality Perspective**  
Md. Rakibul Islam and Minhaz F. Zibran — *University of New Orleans, USA* ......................... 23

**Towards Automated Generation of Java Methods: A Way of Automated Reuse-Based Programming**  
Kento Shimonaka, Yoshiki Higo, Junnosuke Matsumoto, Keigo Naitou, and Shinji Kusumoto — *Osaka University, Japan* ......................... 30

**Correlation Analysis between Code Clone Metrics and Project Data on the Same Specification Projects**  
Yoshiki Higo, Shinsuke Matsumoto, Shinji Kusumoto, Takashi Fujinami, and Takashi Hoshino — *Osaka University, Japan; NTT, Japan* ......................... 37

### Clone Detection Techniques and Clone Visualization

**A Picture Is Worth a Thousand Words: Code Clone Detection Based on Image Similarity**  
Chaiyong Ragkhitwetsagul, Jens Krinke, and Bruno Marnette — *University College London, UK; Prodo, UK* ......................... 44

**Detecting Functionally Similar Code within the Same Project**  
Ryo Tajima, Masataka Nagura, and Shingo Takada — *Keio University, Japan; Nihon University, Japan* ......................... 51

**Towards Slice-Based Semantic Clone Detection**  
Hakam W. Alomari and Matthew Stephan — *Miami University, USA* ......................... 58

**Code Difference Visualization by a Call Tree**  
Toshihiro Kamiya — *Shimane University, Japan* ......................... 60
