SPECIAL SESSION 7
PANEL

DO I NEED THIS TOOL FOR MY CHIPS TO WORK?

MODERATOR: F. MURADALI, AGILENT TECHNOLOGIES
COORDINATOR: A. IVANOV, UNIVERSITY OF BRITISH COLUMBIA

PANELISTS:
ROB AITKEN, AGILENT TECHNOLOGIES
TOM WILLIAMS, SYNOPSYS
MIKE RICCHETTI, INTELLITECH

ABSTRACT
Today, new test tool ideas are emerging from existing and numerous start-up EDA companies. Projected design methodologies and fabrication technologies will tend to dictate which EDA solutions are critical rather than just helpful or "cool." Panelists will be asked to formulate short-term (2 years) and longer term (10 years) “wish lists” for EDA test tools and propose rationale for their choices, especially understanding the constraint of limited resources for tool R&D and purchase.
