Welcome Message from FINA–2012 Symposium Organizers

Welcome to the 8th International Symposium on Frontiers of Information Systems and Network Applications (FINA-2012). The FINA-2012 is held in conjunction with the 26th IEEE International Conference on Advanced Information Networking and Applications (AINA-2012), which will be held from May 26 to May 29, 2012 at Fukuoka Institute of Technology, Fukuoka, Japan.

The purpose of FINA symposium is to bring together developers and researchers to share ideas and research work in the emerging areas of information systems and their applications. The papers included in the proceedings cover all aspects of theory, design and application of wireless networks, multimedia systems and applications, security, high-speed networks and web-based systems.

FINA-2012 contains high quality research papers submitted by researchers from all over the world. Each submitted paper was peer-reviewed by Program Committee members and external reviewers who are experts in the subject area of the paper. Based on the review results, the Program Committee accepted 74 papers.

For organizing an International Symposium, the support and help of many people is needed. First, we would like to thank all the authors for submitting their papers. We also appreciate the support from program committee members and reviewers who carried out the most difficult work of carefully evaluating the submitted papers.

We would like to give my special thanks to Prof. Makoto Takizawa, the Steering Committee Co-Chair of IEEE AINA for his strong encouragement and guidance to organize the symposium. We would like to thank IEEE AINA-2012 General Co-Chairs, Program Co-Chairs, and Workshops Co-Chairs for their support to organize the symposium.

We hope that you will enjoy the symposium and have a pleasant stay in Fukuoka, Japan.

FINA-2012 Symposium Co-Chairs

Leonard Barolli, Fukuoka Institute of Technology, Japan
Fatos Xhafa, Technical University of Catalonia, Spain
Tomoya Enokido, Rissho University, Japan
