Message from INTRICATE-SEC 2015 Workshop Chairs

Welcome to the 3rd International Workshop on the Theories and Intricacies of Information Security problems (INTRICATE-SEC 2015). The INTRICATE-SEC 2015 is held in conjunction with the 29th IEEE International Conference on Advanced Information Networking and Applications (AINA 2015), which will be held from March 25 to March 27, 2015 in Gwangju, Korea.

The INTRICATE-SEC workshop is aimed at security researchers with an interest in designing privacy as well as security solutions for service oriented architectures in technology constrained resource settings. Technology constrained resource settings are characterized by factors that include intermittent network connectivity, unstable power provisioning, and lack of on-the-ground or in-house technology expertise. Rural areas and developing world countries are a special case application scenario that contextualizes the problems of transposing mainstream security and/or privacy solutions to low technology resource environments.

INTRICATE-SEC 2015 contains high quality research papers submitted by researchers from all over the world. Each submitted paper was peer-reviewed by reviewers who are experts in the subject area of the paper. Based on the review results, the Program Committee accepted very good papers.

For organizing an international workshop, the support and help of many people is needed. First, we would like to thank all authors for submitting their papers. We also appreciate the support from program committee members and reviewers who carried out the most difficult work of carefully evaluating the submitted papers.

We would like to give our special thanks to Prof. Makoto Takizawa and Prof. Leonard Barolli, the Steering Committee Chairs of IEEE AINA for their strong encouragement and guidance to organize the workshop. We would like to thank AINA 2015 General Co-Chairs, Dr. James J. Park and Dr. Fatos Xhafa for their advices to make possible organization of INTRICATE-SEC 2015. We also would like to thank AINA 2015 Workshops Co-Chair, Dr. Tomoya Enokido, Dr. Gangman Yi, Dr. Kin Fun Li, and Dr. Wenny Rahayu for their support to organize the workshop. We would like to express special thanks to Dr. Makoto Ikeda, Dr. Elis Kulla, Mr. Tetsuya Oda, and Mr. Shinji Sakamoto for their timely unlimited support.

We wish all of you entertaining and rewarding experience in INTRICATE-SEC-2015 symposium and the IEEE AINA 2015 conference.

INTRICATE-SEC 2015 Program Committee Chair
Anne Kayem, University of Cape Town, South Africa

INTRICATE-SEC 2015 Steering Committee Chairs
Stephen Wolthusen, Royal Holloway, University of London, UK
and Gjøvik University College, Gjøvik, Norway
Christoph Meinel, HPI Potsdam, Germany
