Third International Workshop on Advanced Issues of E-Commerce and Web-Based Information Systems WECWIS 2001

Chairs Message ........................................................................................................................................ viii
Organizing Committee .............................................................................................................................. ix
Program Committee ................................................................................................................................... x

Keynote Address
Dr. Dan Fishman, *VP Research, BEA Systems, Inc.*

Session I. Web-Based Applications and Interfaces
Emerging Topic Tracking System ................................................................................................................ 2
  *K. Bun and M. Ishizuka*
Personalization with Dynamic Profiler (Invited Paper) ........................................................................ 12
  *K-L. Wu, C. Aggarwal, and P. Yu*
Design and Implementation of COSIMA — A Smart and Speaking E-Sales Assistant ..................... 21
  *W. Kießling, S. Fischer, S. Holland, and T. Ehm*
The Architecture of a One-Stop Web-Window Shop ............................................................................ 31
  *M. Marathe and H. Diwakar*

Session II. Data Management for the Internet
Distributed Territorial Data Management and Exchange for Public Organizations .......................... 42
  *F. Arcieri, E. Cappadozzi, E. Nardelli, and M. Talamo*
Data Classification and Management in Very Large Data Warehouses (Invited Paper) .................. 52
  *K. Chelluri and V. Kumar*
Efficient Data Dissemination to Mobile Clients in E-Commerce Applications (Invited Paper) .... 58
  *R. Agrawal and P. Chrysanthis*
Data in Your Space (Invited Paper) ........................................................................................................ 66
  *M. Dunham, A. Al-Mogren, A. Seydim, and V. Kumar*
Data Transformation for Warehousing Web Data (Invited Paper) .................................................... 74
  *Y. Zhu, C. Bornhövd, and A. Buchmann*
Data Distribution Strategies for Providing Database Scalability in E-Commerce Applications .... 86
  *H. Ye, B. Kerhervé, G. Bochmann, and D. Bourne*

Session III. Integration of E-Commerce Services and Software
A Lightweight Dynamic Conversation Controller for E-Services .................................................... 90
  *H. Kuno and M. Lemon*
An Evaluation of Distributed Computing Options for a Rule-Based Approach to Black-Box Software Component Integration ......................................................................................................... 100
  *S. Urban, A. Saxena, S. Dietrich, and A. Sundermier*
Infrastructure for B2B Exchanges with RosettaNet

M. Sundaram and S. Shim

An e-Business Integration & Collaboration Platform for B2B e-Commerce

Development of Service Integration Platform for One-Stop Service Applications

Session IV. Internet Transactions and Workflows

End-to-End Transaction Management for Composite Web Based Services

A. Sahai, J. Ouyang, and V. Machiraju

A Framework for Speeding up Workflow Instances by Exploiting Alternate Paths (Invited Paper)

E. Kafeza and K. Karlapalem

Guaranteeing Recoverability in Electronic Commerce (Invited Paper)

C. Pedregal-Martin and K. Ramanritham

State Recovery in Internet Transactions

K. Dutta and D. VanderMeer

Session V. Automating E-Services: Agents, Languages, and Applications

An Architecture-Centric Approach to Multi-Agent System Development and Application

S. Park, V. Sugumaran, and S. Lee

Analysis of a Price Markdown Mechanism

W. Elmaghraby, A. Gulcu, and P. Keskinocak

A Language for Information Commerce Processes

K. Aberer and A. Wombacher

An Anonymous Electronic Voting Protocol for Voting Over the Internet

I. Ray, I. Ray, and N. Narasimhamurthi

Session VI. Industrial Session

Dynamic Pricing for E-Commerce, an Integrated Solution

M. Marshall

ABSolute: An Intelligent Decision Making Framework for E-Sourcing

M. Bichler, J. Lee, H. Lee, and J.-Y. Chung

Session VII. Web Infrastructures

Customized Library of Modules for STREAMS-Based TCP/IP Implementation to Support Content-Aware Request Processing for Web Applications

W. Tang, L. Cherkasova, L. Russell, and M. Mutka

Scalable Web Server Cluster Design with Workload-Aware Request Distribution Strategy WARD

L. Cherkasova and M. Karlsson
Virtual Certificate Authority for Virtual Enterprises ................................................................. 222
   B. Li, K. Dai, and S. Zhang

Communication Space Reduction for Formal Verification of Secure Authentication Protocols .................................................. 225
   K. Kim and J. Abraham

Cache Freshness Optimization: Sliding Scale Guarantees .......................................................................................... 228
   M. Satitsamitpong and H. Thomas

Author Index ........................................................................................................................................... 231
