CNBuB-1: International Workshop on Community Networks and Bottom-up-Broadband Workshop - 1

An analysis of the Ninux wireless community network
Leonardo Maccari (University of Trento, Italy)
pp. 1-7

A Questionnaire based Examination of Community Networks
Jeroen Avonts (University of Antwerp, Belgium); Bart Braem (IMinds - University of Antwerp, Belgium); Chris Blondia (University of Antwerp, Belgium)
pp. 8-15

Clouds of Small Things: Provisioning Infrastructure-as-a-Service from within Community Networks
Amin M. Khan (Universitat Politècnica de Catalunya, Spain); Leila Sharifi (Instituto Superior Técnico, Portugal); Luís Veiga (Instituto Superior Técnico - UTL / INESC-ID Lisboa, Portugal); Leandro Navarro (Universitat Politècnica de Catalunya, Spain)
pp. 16-21

CNBuB-2: International Workshop on Community Networks and Bottom-up-Broadband Workshop - 2

Wireless Mesh Software Defined Networks (wmSDN)
Andrea Detti (University of Rome "Tor Vergata", Italy); Claudio Pisa (University of Rome "Tor Vergata", Italy); Stefano Salsano (University of Rome "Tor Vergata", Italy); Nicola Blefari-Melazzi (University of Rome "Tor Vergata", Italy)
p. 89-95

NHDP and OLSRv2 for Community Networks
Christoph Barz (Fraunhofer FKIE, Germany); Julia Niewiejska (Fraunhofer FKIE, Germany); Henning Rogge (Fraunhofer Inst. for Communication, Information Processing and Ergonomics FKIE, Germany)
p. 96-102

PACE: Simple Multi-hop Scheduling for Single-radio 802.11-based Stub Wireless Mesh Networks
Filipe Ribeiro (INESC TEC, Portugal); Rui Lopes Campos (INESC TEC, Portugal); David Rua (INESC TEC, Portugal); Carlos Pinho (INESC Porto, Portugal); José Ruela (INESC Porto, Portugal)
p. 103-110

Software Defined Networking for Community Network Testbeds
Emmanouil Dimogerontakis (Universitat Politècnica de Catalunya, Spain); Ivan Vilata (Pangea, Spain); Leandro Navarro (Universitat Politècnica de Catalunya, Spain)
p. 111-118
