AEARU Computer Science Workshop

AEARU was established in January 1996 by the member university presidents as a forum for leading research-oriented universities in East Asia to exchange faculty and students, develop common curricula and transferable credits, share facilities, information and materials, cooperate in research projects, sponsor workshops and international events, and conduct other mutual academic endeavors.

AEARU organizes several kinds of workshops for important research areas, each of which is held annually. AEARU Computer Science workshop was previously held in Taiwan, Hong Kong, Beijing. This is the fourth workshop to be held in Kyoto, Japan. In addition to regular topics that exchange research information among member universities, this year we selected “Computer Science Education” as a major topic to be discussed. IT-related industry will become more important in this area of the world and we need to discuss the current situation, future plans, and problems of IT and CS education.

We thank the authors, participants, and the International Relations Division of Kyoto University. Without the help of Ms. Hitomi Takada, editing the proceedings would be incomplete.

Makoto Nagao, President of Kyoto University
Toshihide Ibaraki, Dean of the Graduate School of Informatics
Yahiko Kambayashi, AEARU CS representative of Kyoto University

December 2001

AEARU Member Universities
Fudan University
Hong Kong University of Science and Technology, HKUST
Korea Advanced Institute of Science and Technology, KAIST
Kyoto University
Nanjing University
Osaka University
Peking University
Pohang University of Science and Technology, POSTECH
Seoul National University
Taiwan University
Tohoku University
Tokyo Institute of Technology
Tsing Hua University, Hsinchu
Tsinghua University, Beijing
University of Science and Technology of China
The University of Tokyo
University of Tsukuba

Workshop Organization
Workshop Co-Chairs
Makoto Nagao, President of Kyoto University
Toshihide Ibaraki, Dean of the Graduate School of Informatics

Publication and Local Arrangement
Yahiko Kambayashi, AEARU CS representative of Kyoto University

Publication Assistant
Hitomi Takada, Kyoto University
