

Acknowledgments

WSE 2004

WSE 2004 is deeply indebted to all the people who helped to make the workshop a success. We would like to thank the ICSM 2004 organizers for allowing us to co-locate the workshop with their conference. We are indebted to the members of the WSE 2004 Program Committee for their high-quality reviewing of the paper submissions. We are grateful for the workshop participants who have traveled from all over the world to attend the event. Finally, we wish to thank the sponsors for their gracious support, without which the workshop would not have been possible.
