PAPERS

Applications
An Improved Algorithm for Testing the Planarity of a Graph...............................F. Rubin 113

Artificial Intelligence
Speeding Up the Synthesis of Programs from Traces..............................A. W. Biermann, R. I. Baum, and F. E. Petry 122

Computer Systems
A Comparison of Register Transfer Languages for Describing Computers and Digital Systems. M. R. Barbacci 137

Fault Detection
Detection of Pattern-Sensitive Faults in Random-Access Memories..........................J. P. Hayes 150

Feature Extraction
Typicality, Diversity, and Feature Pattern of an Ensemble...............................A. K. C. Wong and T. S. Liu 158

Pattern Recognition
Experiments in the Contextual Recognition of Cursive Script............................R. W. Ehrich and K. J. Koehler 182

Sequential Machines
Design of Asynchronous Sequential Networks Using READ-ONLY Memories...........H. A. Sholl and S.-C. Yang 195

CORRESPONDENCE
Reed–Muller Like Canonic Forms for Multivalued Functions.............................D. K. Pradhan and A. M. Patel 206
Detection of Unidirectional Multiple Errors Using Low-Cost Arithmetic Codes........................J. F. Wakerly 210
Algorithms for Binary Coded Balanced and Ordinary Ternary Operations..................G. Frieder and C. Luk 212
A System of Magnetic Bubble Logic......................................................................R. C. Minnick 217
Characterization of Unate Cascade Realizability Using Parameters.........................S. Bandyopadhyay, A. Pal, and A. K. Choudhury 218
Comments on “The Relationship between Multivalued Switching Algebra and Boolean Algebra under Different Definitions of Complement”..................................................E. Ducasse and G. Metze 220
Authors’ Reply.................................................................................................S. Y. H. Su and A. A. Sarris 220

BOOK REVIEWS
B75-3 Numerical Methods—G. Dahlquist and A. Björk...........................................Reviewed by T. Pavlidis 222
B75-4 Computer Organization and Programming—C. W. Gear.................................Reviewed by R. P. Voith 222
Comments on the Review of “Peripheral Devices”................................................I. Flores 223
Reviewer's Reply.........................................................................................A. C. L. Barnard 224
