

COMPUTER: Up-to-date discussions of the latest developments in hardware and software systems; news, new products, opinion, commentary, abstracts. Published monthly.

CONFERENCE DIGESTS AND PROCEEDINGS: Records of many conferences, symposia, and workshops, including the useful Digests for the Society-sponsored COMPCONS.

IEEE COMPUTER GRAPHICS AND APPLICATIONS: Latest information on graphics technology and applications; addresses such topics as display technology, CAD/CAM, business data graphics, human factors in graphic systems design, etc. Published monthly.

IEEE DESIGN AND TEST OF COMPUTERS: Covers methods, practical experience, research ideas, and commercial products that aid in the design and test of chips, assemblies, and systems. Published quarterly.

IEEE MICRO: Articles on applications software, hardware design, new technical developments and microcomputer standards, new products, book reviews, and professional calendar. Published bimonthly.

IEEE SOFTWARE: Tutorials and surveys on current techniques and new products in software design and development. Published bimonthly.

TRANSACTIONS ON COMPUTERS: Carefully refereed archival papers in all fields of computation, information processing, applications, and computer systems research and design. Published monthly.

TRANSACTIONS ON SOFTWARE ENGINEERING: Carefully refereed archival papers on all aspects of the specification, development, management, test, maintenance, and documentation of computer software. Published monthly.

TRANSACTIONS ON PATTERN ANALYSIS AND MACHINE INTELLIGENCE: Carefully refereed archival papers on all aspects of pattern recognition, image processing, artificial intelligence, and their applications. Published bimonthly.
