

# Editor's Note

IT is my pleasure to introduce Peter Lindstrom, who has recently joined *TVCG* as an Associate Editor. I am looking forward to his support in further improving the quality of *TVCG* and in promoting the work published in the journal. Below is the biographical sketch listing his accomplishments and areas of expertise. *TVCG*'s Editorial Board is very pleased to welcome Peter Lindstrom to this new role.

Leila De Floriani  
*Editor-in-Chief*

---

**Peter Lindstrom** is a computer scientist and project leader in the Center for Applied Scientific Computing at Lawrence Livermore National Laboratory (USA). His primary research areas include scientific visualization, computer graphics, geometric modeling, and data compression. Peter received the PhD degree in computer science from Georgia Institute of Technology in 2000, and BS degree in computer science, mathematics, and physics from Elon University. He joined Lawrence Livermore National Laboratory in 2000, where he currently leads several research efforts on stream processing, data locality and compression, and uncertainty visualization. He previously served as Associate Editor (2010-2012) and then as Editor-in-Chief (2012-2015) for *Graphical Models*, and is currently a member of the *Graphical Models* Editorial Advisory Board. He has served on 57 technical program committees for various international conferences, and nine times for IEEE Visualization. He is a senior member of IEEE.
