The IEEE Computer Society is an association of people with professional interest in the field of computers. All members of the IEEE are eligible for membership in the Computer Society, as are members of certain professional societies and other computer professionals. Computer Society members will receive Transactions on Haptics upon payment of the annual membership membership fee (US$ for IEEE members, US$2 for others) plus an annual subscription fee of US$. For additional membership and subscription information, visit our Web site at http://www.computer.org or write to IEEE Computer Society, 10452 Los Vaqueros Circle, Los Alamitos, CA 90720 USA. Individual subscriptions copies of Transactions are for personal use only.

IEEE TRANSACTIONS ON HAPTICS is published quarterly by the IEEE Computer Society, IEEE Computer Society One Paseo: One Paseo, Suite 400, USA, New York, NY 10016 USA. Responsibility for the content rests upon the authors and not the IEEE, its officers, or its members. Copyright and Reprint Permissions: Abstracting is permitted with credit to the source. Libraries are permitted to photocopy for private use of patrons, provided the per-copy fee indicated in the code at the bottom of the first page of the copy; and 3) does not imply IEEE endorsement of any third-party products or services. Authors and their companies are permitted to post their IEEE-copyrighted material on their own web servers without permission, educational or personal use of this material is permitted without fee, provided such use: 1) is not made for profit; and 2) includes this notice and a full citation to the original work on the first page of the copy. However, the accepted (final) manuscript paper for which an editor-in-chief determines that an exception to the standard limit is appropriate and that from one to four additional pages are needed. The IEEE Computer Society allows for this possibility within its policy on mandatory overlength page charges. Independent of any voluntary page charge, the IEEE Computer Society assesses the authors of accepted papers that exceed the regular page regular paper length limit a fee called Mandatory Overlength Page Charge (MOPC). The regular paper length limit is defined at 12 formatted pages, including references and author biographies. Any pages or fraction thereof exceeding this limit are charged $200 per page. Regular papers may not exceed 16 formatted pages. Authors will be notified of any assessed charges when galley proofs are sent for review. Payment must be sent at the time galley proofs are approved by the author. The IEEE Computer Society's policy on page limits as described here is strictly enforced.

The information below is a summary of our guidelines detailed at the ToH author center, www.computer.org/portal/web/toh/author. All authors are responsible for understanding these guidelines before submitting their manuscript.

**Manuscript Central**

The IEEE Computer Society is now employing a secure, Web-based manuscript submission and peer-review tracking system called Manuscript Central. To submit a manuscript, please visit https://mc.manuscriptcentral.com/htc. The site contains detailed instructions on usage and submission requirements.

**ToH Manuscript Specifications**

- **Regular papers—**12 double-column pages, using the IEEE CS template
- **Short contributions—**6 double-column pages, using the IEEE CS template
- **Comments—**2 double-column pages, using the IEEE CS template
- **Survey—**18 double-column pages, using the IEEE CS template

*These page limits include references and reasonably-sized figures. A double-column page is defined as an 8.5" x 11" page with 9.5-point type and 12-point vertical spacing. Margins should be one inch all around (for top, bottom, right, and left). Templates for submitting manuscripts can be downloaded from the ToH author center.

**Supplemental Material**

Supplemental material can include relevant proofs, code, experimental data, short movies, appendices, animations, audio, etc. All supplemental material will undergo the peer review process along with the paper.

Supplemental material will be published on our Digital Library with the electronic version of the paper, where it can be accessed for free, and will be linked to the supplementary material will be included in the printed version.

For information on submitting final publication materials, please visit www.computer.org/portal/web/tohreview/journals/author.

**Submission Policies**

Information for our submission policies can be found at www.computer.org/portal/web/tohreview/journals/author.

**Copyright Information**

IEEE prohibits discrimination, harassment and bullying. For more information, visit www.ieee.org/publications_copyright_info. It is the IEEE's policy (Policy 6.16) to assume that all clearances are in place. For more information about our copyright policies, please visit www.computer.org/copyright.htm.

**Mandatory Overlength Page Charges**

In order to encourage prompt manuscript submission and final papers, the IEEE Computer Society follows a strict policy on the lengths of both manuscript submissions and final papers. So that manuscripts meet submission requirements, supporting but nonessential information should be submitted as supplemental material. However, the accepted (final) manuscript paper for which an editor-in-chief determines that an exception to the standard limit is appropriate and that from one to four additional pages are needed. The IEEE Computer Society allows for this possibility within its policy on mandatory overlength page charges. Independent of any voluntary page charge, the IEEE Computer Society assesses the authors of accepted papers that exceed the regular page regular paper length limit a fee called Mandatory Overlength Page Charge (MOPC). The regular paper length limit is defined at 12 formatted pages, including references and author biographies. Any pages or fraction thereof exceeding this limit are charged $200 per page. Regular papers may not exceed 16 formatted pages. Authors will be notified of any assessed charges when galley proofs are sent for review. Payment must be sent at the time galley proofs are approved by the author. The IEEE Computer Society’s policy on page limits as described here is strictly enforced.

**Ordering Reprints**

Information about purchasing reprints can be found at www.computer.org/author/reprint.htm.
