

## STUDENTS IN COMPUTER SCIENCE AND ENGINEERING!

# Are you one of the many who don't ...

- recognize opportunities?
- take on the challenge of leadership?
- use their imagination and drive to make things happen?
- apply for Computer Society scholarships?
- stand out in the crowd?
- know that professional-level technical affiliation and activities before graduation can help you learn, get a job and enhance your resume?

# Or are you one of the few who do?!

*As one of the few, here's your opportunity to step out from the crowd & join the IEEE Computer Society as a student member*

## COMPUTER SOCIETY STUDENT MEMBERSHIP FEATURES...

**REDUCED RATES.** Student membership dues are considerably lower than those paid by regular members. By joining as a student member, you are automatically upgraded upon graduation. The dues for the first year after graduation are also substantially reduced — a considerable savings over joining after you graduate.

**COMPUTER MAGAZINE & IEEE SPECTRUM.** Every month you receive these award-winning magazines. Featured for their wide-ranging appeal are both technical and non-technical articles dealing with the profession, applications, and state-of-the-art technology. Also included are conference reports, and features on job opportunities, awards, and education. Each month, student members also receive The Institute, IEEE's newspaper on activities and news within and affecting IEEE and its members.

**MEMBERSHIP PIN AND CARD.** You receive a Student membership pin from your IEEE Counselor, or directly through the mail, if your school doesn't have a Student Branch. (See details that follow on forming a Student Branch Chapter.) Your membership card comes directly from the IEEE.

**SUBSCRIPTION AND BOOK DISCOUNTS.** Computer Society Student Members may receive, at specially reduced rates, any or all of the many IEEE Computer Society periodicals. (See the publication options on your membership form.) In addition, Student members are entitled to purchase conference proceedings and tutorial texts at special member rates. **A catalog of over 300 publications is available from the:** Computer Society Administrative Offices, P.O. Box 639, Silver Spring, MD 20901.

**STUDENT BRANCHES.** Participation in a Student Branch provides insight into your future career by offering activities such as field trips, job seminars, and design projects. There are over 430 IEEE Student branches worldwide.

**STUDENT BRANCH CHAPTERS.** If there are 12 Computer Society Student Members within an IEEE Student Branch, a Student Branch Chapter may be chartered. If there is no Student Branch at your school, both the branch AND chapter can be established with the signatures of 20 student members of the Computer Society, along with the recommendation of the regional representative of the IEEE Student Activities Committee (see the form on the following pages). Special benefits are available to members of Computer Society Student Branch Chapters! *Only members of Computer Society Student Branch Chapters are eligible to receive a \$3000-per-year scholarship.* Four scholarships are awarded every year! Only members of Computer Society Student Branch Chapters are eligible to participate in the Distinguished Visitors Program in which a variety of renowned lecturers, at no expense to the chapter, are invited to talk about current professional and technical topics of interest to the students. Visits by these well-known experts enhance not only the institution to which they're invited but also the branch chapter's membership and activities.

**OTHER BENEFITS FOR STUDENTS.** Book loans, bibliographic searches, and photocopying through the Engineering Societies Library. Student papers awards for top regional students. Cash awards as well as publication in the annual "IEEE Student Papers" publication enhance a student's employment prospects. Low-cost group insurance participation in up to five of the finest group insurance plans established expressly for IEEE members.
