Correction to “DCT-Based Iris Recognition”

Donald M. Monro, Member, IEEE,
Soumyadip Rakshit, Student Member, IEEE,
and Dexin Zhang, Student Member, IEEE

The authors of the paper “DCT-Based Iris Recognition,” which appeared in the IEEE Transactions on Pattern Analysis and Machine Intelligence, vol. 29, no. 4, pp. 586-595, Apr. 2007 would like to point out that there was a transcription error in the definition of the DCT [1, p. 587]. The value of \( w(k) \) should be equal to \( 1/\sqrt{2} \) instead of \( \sqrt{2} \).
