EDITOR'S NOTE R. T. Yeh 541

PAPERS

Methodology

Communication and Synchronization in Distributed Systems A. Silberschatz 542

Exception Handling in CLU B. Liskov and A. Snyder 547

Proving Total Correctness of Parallel Programs A. F. Babich 558

Review and Revocation of Access Privileges Distributed Through Capabilities V. D. Gligor 575

Program Derivation Using Data Types: A Case Study C. J. P. Lucena and T. H. C. Pequeno 586

Language

A Case Study in Program Transformation: Translation into Polish J. Cohen and R. Sitter 593

Object Migration and Authentication V. D. Gligor and B. G. Lindsay 607

Compile-Time Analysis of Data List-Format List Correspondences P. W. Abrahams and L. A. Clarke 612

Analysis

Methods for the Measurement of Memory Utilization and the Improvement of Program Locality T. Masuda 618

Throughput Capacity of a Sequence of Queues with Blocking Due to Finite Waiting Room P. Caseau and G. Pujolle 631

Structuring Programs for Efficient Operation in Virtual Memory Systems A. L. Barrese and S. D. Shapiro 643

Analysis of Closed Queuing Networks with Periodic Servers G. H. Gonnet and D. E. Morgan 653

1979 INDEX Follows page 659

Transactions on Software Engineering, microfiche of Volume 1 (1975) (Quarterly), microfiche or hardbound of Volume 2 (1976) (Quarterly), and microfiche or hardbound of Volume 3 (1977), Volume 4 (1978) (Bi-monthly) and Volume 5 (1979) (Bi-monthly).

The fastest growing journal published by the IEEE — and the only scientific journal devoted to this vital area. Features archival yet practical research papers on all aspects of the specification, development, management, test, maintenance, and documentation of computer software.
