Editor's Notice ..... *L. A. Belady* 529

### Special Section on COMPSAC 80

Guest Editorial ..... *C. G. Davis* 530

#### SPECIAL PAPERS

Operational Requirements Accommodation in Distributed System Design ..... *S. W. Smoliar* 531

Application of a Methodology for the Development and Validation of Reliable Process Control Software .....  
..... *C. V. Ramamoorthy, Y.-K. R. Mok, F. B. Bastani, G. H. Chin, and K. Suzuki* 537

A Model for Representing Programs Using Hierarchical Graphs ..... *S. S. Yau and P. C. Grabow* 556

#### REGULAR PAPERS

##### *Distributed Systems*

Collision-Free Access Control for Computer Communication Bus Networks .....  
..... *K. P. Eswaran, V. C. Hamacher, and G. S. Shedler* 574

A Shortest Tree Algorithm for Optimal Assignments Across Space and Time in a Distributed Processor System .....  
..... *S. H. Bokhari* 583

##### *Program Representation*

A Method for Representing Data Items of Unlimited Length in a Computer Memory ..... *R. L. Baber* 590

Information Flow Certification Using an Intermediate Code Program Representation .....  
..... *A. L. Mennie and G. H. MacEwen* 594

#### COMMENTS

Some Critical Comments on the Paper "An Optimal Approach to Fault Tolerant Software Systems Design" by Gannon  
and Shapiro ..... *P. A. Lee, J. L. Lloyd, and S. K. Shrivastava* 608

Comments on the Critique of Lee, Lloyd, and Shrivastava ..... *T. F. Gannon and S. D. Shapiro* 610

1981 INDEX ..... Follows page 611
