Message from the CIT-2011 Steering Chairs

On behalf of the CIT Steering Committee, we welcome you to the 11th IEEE International Conference on Computer and Information Technology (CIT-2011) in Pafos (Paphos), Cyprus, August 31 - September 02, 2011.

Since CIT-06 (Seoul, Korea, September, 2006), CIT has been an IEEE CS full sponsored international conference. Since then, CIT-07 (Aizu, Japan, October, 2007), CIT-08 (Sydney, Australia, July 2008), CIT-09 (Xiamen, China, October, 2009) and CIT-2010 (Bradford, UK, June, 2010) have gradually established as a major international conference on computer and information technology. Now one of the major features of CIT is its quality. Only high quality papers can be accepted from the large numbers of submission based on a growing database of authors, a big and professional PC committee, a standard review procedure, and a good management system of CIT supported by the CIT steering, organizing and technical committees. While the CIT covers all fields of computer and information technology in principle, each year CIT has its special feature by the accompanying international symposiums and workshops with special themes, some of them are well known international events. No doubt, only high quality papers can be accepted.

An international conference can only be organized by supports and great voluntary efforts of many people and organizations and our main responsibility is to coordinate the various tasks carried out with other willing and talented volunteers. We would like to thank the General Chair George A. Papadopoulos, University of Cyprus, Cyprus, for very successful organization of CIT-2011. We would like to express our special thanks to Costin Badica, University of Craiova, Romania, and Ronaldo Menezes, Florida Institute of Technology, USA, for making an excellent technical program as the Program Chairs. We would like to greatly appreciate Mirko Viroli, University of Bologna, Italy, and Angelo Brayner, University of Fortaleza, Brazil, for being CIT-2011 workshop/symposium chairs. We also thank all chairs and committee members of the CIT-2011 workshops/symposia. Without workshops/symposia, we could not successfully organize CIT-2011. We also would like to express our deep appreciation for George A. Papadopoulos and his local organizing team from University of Cyprus, Cyprus, for their hard work, excellent service, and superb local arrangements.

Finally, we also would like to take opportunity to thank all the members of the organizing committee and technical program committee as well as all of the authors who submitted papers and reviewers who reviewed huge number of papers.

Daming Wei, Professor Emeritus, University of Aizu, Japan
Laurence T. Yang, St Francis Xavier University, Canada

Steering Chairs of CIT-2011
