Welcome to the 14th IEEE International Conference on Computer and Information Technology (CIT2014). It is our great pleasure and honor to hold CIT2014 in Xi’an, Shaanxi, China, September 11-13, 2014. On behalf of the CIT steering committee and CIT2014 organizing committee, we would like to express to all the participants, especially our visitors from outside countries, our cordial welcome and high respect.

With the rapid growth in computing and information technology, the past decade has witnessed a proliferation of powerful parallel and distributed systems and an ever increasing demand for practice of computer and information technology (CIT). CIT has moved into the mainstream of computing and has become a key technology in determining future research and development activities in many academic and industrial branches. CIT2014 is the event in a series of highly successful International Conferences on Computer and Information Technology (CIT), previously held as CIT2013 (Sydney, Australia, December 2013), CIT2012 (Chengdu, China, October 2012), CIT2011 (Paphos, Cyprus, August 2011), CIT2010 (Bradford, UK, June 2010), CIT2009 (Xiamen, China, October 2009), CIT2008 (Sydney, Australia, July 2008), CIT2007 (Fukushima, Japan, October 2007), CIT2006 (Seoul, Korea, September 2006), CIT2005 (Shanghai, China, September 2005), CIT2004 (Wuhan, China, September 2004), CIT2002 (Fukusima, Japan, September 2002), CIT2001 (Shanghai, China, September 2001), and CIT2000 (Fukusima, Japan, October 2000).

An international conference can be organized by supports and great voluntary efforts of many people and organizations and our main responsibility is to coordinate the various tasks carried out with other willing and talented volunteers. We would like to thank the General Chairs Prof. Mohammad S. Obaidat (Monmouth University, USA), Prof. Witold Pedrycz (University of Alberta, Canada), and Prof. Zheng Yan (Xidian University, China/Aalto University, Finland) for very successful organization of CIT2014. We would like to express our special thanks to the Program Chairs Dr. Alvin Chin (Microsoft, China), Prof. Valtteri Niemi (University of Turku, Finland), and Prof. Bin Song (Xidian University, China) with all program track chairs for making excellent technical program. We would like to greatly appreciate the Workshop/Symposium Chairs Prof. Jun Liu (Xi’an Jiaotong University, China), Prof. Xinyi Huang (Fujian Normal University, China) and Prof. Hossain Shahriar (Kennesaw State University, USA), for organizing 6 excellent CIT workshops/symposium. We also thank all chairs and committee members of the CIT2014 workshops/symposium. Without workshops/symposium, we could not successfully organize CIT2014. We also would like to express our appreciation for the excellent local team for the prefect local arrangements and the detailed registration work, especially to Prof. Hongxin Tian, for his significant contribution on CIT2014.

Finally, we also would like to take opportunity to thank all the members of the organizing committee, the program track chairs and technical program committee as well as all of the authors who submitted papers and reviewers who reviewed huge number of papers.

Laurence T. Yang, St Francis Xavier University, Canada
Daming Wei, Aizu University, Japan
Steering Chairs of CIT2014
