ETT 2009

Table of Contents

Message from Conference Chair .................................................................xii
Organizing Committee .............................................................................xiii
Reviewers .................................................................................................xiv

ETT 2009

Construction and Practice of Teaching Team for General Colleges ..................3

Xianzhang Feng

ZPD-Based Multi-level Teaching Pattern in Software Engineering--A Case
Study of Data Structure and Algorithm Course ............................................7

Lingfen Wang, Xizuo Li, Wei Li, and Haiyu Song

Development of a Robot Flight-Simulator Education Programming System
for Beginners Based on Web 2.0 - ARFLIS ................................................10

Young Hoon Sung, Yong Ho Moon, and Seok Won Ha

Improving Personalized Talent Education by Strengthening Specialty

Direction of Information System in Software Engineering .............................16

Haiyu Song, Xizuo Li, Pengjie Wang, and Dandan Zhao

Teaching Web Technology by Learning-By-Doing ........................................19

Yu Lijie, Xia Liwen, and Guo Wenrong

Comparison and Analysis on Practical Teaching Model of Electronic

Commerce ...............................................................................................22

Cai Tijian

An Innovative Education System for International Service Engineering .............26

Yingjie Xia, Guohua Zhan, Sen Zhang, and Yang Li

On the Role of Problem-Solving and Mathematical Modeling
in Application-Oriented Talents Training ................................................30

Chengming Qi, Jianjing Sun, and Ping Li
Advance your Education with Distance Learning .................................................................34
   Yang Jinxiang and Zhang Ying
Indaptation and the Corresponding Solution in Distance Learning ........................................38
   Zhang Ying and Yang Jinxiang
Simulative Constructivism in Management Teaching .................................................................41
   Wei Zhang and Lan Pan
A New Model of Teaching-Learning Process for Microcomputer Courses ..............................44
   Xu Jiangchun, Mao Jianlin, Chen Xianning, Fu Lixia, and Wu Jiande
Discussion on the Construction of E-Commerce Education Program .......................................48
   Jing Yang and Hua Jiang
Interaction on Multimedia Teaching .........................................................................................52
   Xiao-Ping Zong and Pei-Guang Wang
Research of ERP Practice Teaching System of the Economics and Management Majors of Independent Institutes ........................................................................................................................60
   Jing Yang and Hua Jiang
Problems on College Administrative Staff Performance Appraisal and Its Countermeasures ........................................................60
   Baoliang Xing, Feng Xu, and Jing Zhao
Analysis of Factors Affecting the Motivation of Female College Students in Physical Training ...............................................................................................................................64
   Wei Zhang, Zhiguang Liu, and Lei Li
Research on the Application of Computer Multimedia Technology in College Teaching Aerobics .................................................................................................................................67
   Wei Zhang and Caixia Wang
The Investigation of Junior Middle School Teachers’ Teaching Ability in the Classroom and Some Strategies Towards Them .................................................................71
   Jian Li, Feng Xu, and Jinting Yang
Data Management Mode Research Based on Learners’ Learning Information -- An Example of Network Courses ..................................................................................................................74
   Jin Zhang and Hong Shen
Research on Teaching Reform of Computer Networks Course ..................................................79
   Jian Feng
The Study on the Application of Multimedia Technology in College Basketball Teaching ..........................................................83
   Lei Xu and Zhiquang Liu
On the Construction of Net-Based Microteaching Training Mode ...........................................86
   Guirong Zhang, Fenglian Bian, and Guolin Li
Analyzing Algorithm of Multi-camera Multi-touch System for Educational Application ........................................................90
   Xiang Li, Yongtian Wang, Yue Liu, and Jinghui Xie
Establishing a New Self-Learning Mode in CAI Courseware Designing .................................................................95
Cai Qixian, Huang Xiaolu, Wang Zhiwen, and Wang Huqi

Iris Location Algorithm Based on Gradient Direction Information ..............................................................................99
Zhiwen Wang, Shaozi Li, Guoqing Xie, and Songzhi Su

How Feedback Intervention Affects the Performance of Self-Efficacy: An Eye Movement Study ..................................102
Jing Hu, Chenxiao Tang, Xi Lei, Xuemin Zhang, and Zhao Xia

Effect of Gaze Direction and Face Expression on Visual Reflexive Attention .............................................................108
Xin Guan, Qi Wang, Ji Zhang, and Xue-min Zhang

Science Education and Fostering of Critical Thinking in China ..................................................................................114
Cuilan Qiao

A Kind of Virtual Oscilloscope Used in Experiment Teaching Based on Sound Card and LabVIEW .........................118
Aiju Chen and Jingjing Liu

Research on the Evaluation Model of University Bilingual Teaching Quality ............................................................122
Xiaorui Zhang and Zhichun Yue

Research on Technological Innovation Ability for Enterprises in Handan Based on Fuzzy Comprehensive Appraisal Model .................................................................126
Xiaorui Zhang and Zhichun Yue

Design of Learning Activities for Online Course Based on Web2.0 ..........................................................130
Lina Sun, Wenxin Liang, and Bo Nan

Automation Professional Education and Quality Education .........................................................................133
Shuangbao Ma and Huanqi Tao

Face Recognition Based on LFDA and LS-SVM ........................................................................................................136
Qi Shen and Ruixiang Liu

Adult Distance Education Students' Perspective on Critical Success Factors of e-Learning ........................................140
Farn-Shing Chen, Chin-Wen Liao, and Tsai-Hsiu Chen

Research and Practice in Analog Circuit Experiment Teaching .........................................................................144
Fengde Guo and Jun Rao

A Discussion on the Training Mode of University Administrative Staffs under the Specialization View ..................146
Xiaohua Li, Jianhua Zhao, and Ligang Fan

Building Up Web Course Electromechanics Based on Web Information Technology ......................................................150
Miao Manxiang

The International Comparison of Professionalization of University Administrators and the Related Apocalypse ........154
Xiaohua Li, Junshuan Liu, and Jianhua Zhao
The Framework of Knowledge Abilities Qualities on Business English and Curriculum Development ................................................................. 159
   Xi-lan Sun, Ming-wang Shi, and Xi-ling Chen

Application of Combined Grey Neural Network and Data Mining in Information Technology Education ....................................................... 163
   Qu Zhiming and Hou Wei

Application of Network Learning Theory and Design Principle in CAI Based on Clustering Algorithm and Rough Set ................................ 167
   Qu Zhiming and Hou Wei

Application of PCFA in Assessing Operation Environment of Computer Security in Education Management ............................................. 171
   Qu Zhiming and Huo Hai-ying

Application of Performance Technology in Vocational Technology Education Based on Comprehensive Fuzzy Evaluation ..................... 175
   Qu Zhiming and Huo Hai-ying

Design of C Language On-Line Study and Test System Based on Web ......................................................................................... 179
   Wen X.L.

Design and Implementation of Workflow System on Bachelor Degree Final Design ........................................................................... 183
   Fuxiang Gao, Bo Wei, and Lan Yao

The Exploration and Practice of Multimedia Teaching in Course of Microcomputer Principle and Application ......................................... 189
   Xin Zhang, Qun Gao, Shutian Wei, and Yanli Zhang

Research on the Talents Training of GIS Based on the Market Multi-level Needs .................................................................................. 192
   Youliang Chen and Xiaosheng Liu

A Bilingual Teaching Modal in a Programing Language Course ......................................................................................................... 197
   Hanjing Li, Kuanquan Wang, and Yuying Wang

Application Research of CD IO in MCU Teaching Reform .............................................................................................................. 201
   Wang Qingdong, Mi Jun, and Wang Guimei

Multilingual Information Service Platform for University Digital Library ........................................................................................... 204
   Rongjian Xie and Dan Wu

Effective Training for College Librarian on Multilingual Information Service .................................................................................. 208
   Rongjian Xie and Dan Wu

Educational Resources Optimization and Efficiency Increase in Curriculum Equivalency of Sino-Foreign Cooperation Programs .............. 212
   Yilu Shen

Psychological Contract -- A New Kind of Exploration to the Study of Employment Relationship in Organizations of Knowledge-Based Employees .......................................................................................... 216
   Yilu Shen

</table>
An Exploration Study of Competence-Based Training Needs of Hotel Sales

Li Li, Ping He, and Liu Yang

An Evaluation Model for Staff of Enterprise Based on Improve Niche Measure

Dong Yu-hong and Wang Xi-zhong

Research on the Sustainable Development Ability Evaluation of Prefectural-Level City in Hebei Province

Dong Yu-hong and Wang Xi-zhong

Discuss of QinQ Technology in E-Learning

Chengwen Zhu and Wang Li

Comparison of Security Methods in Access Network

Chengwen Zhu and Wang Li

Intuitive Learning and Artificial Intuition Networks

Weidong Tao and Ping He

Teaching Reform and Innovation Based on CDIO

Yang Liu, Chunting Yang, and Xiaoyan Yang

Software Engineering Talent Cultivation in the CDIO Learning Cycle

Chunting Yang, Yang Liu, and Jun Zhan

Applied Research on the Mobile Learning in Foreign Language Learning

Xinghong Liu

Innovative Experiment Teaching in Engineering Practice Courses

Xiao Chen

To Build Positive Teacher-Student Relationship in Universities

Yang Gao

Campus Network Based E-learning System in Chinese Universities

Chengcheng Zhang, Guiyue Yao, and Fei Wang

Multi Dimensional Vector Space Based Evaluation Method for the Effectiveness of Using ICTs in College Teaching Curriculum

Chengcheng Zhang, Shumei Xu, and Fei Wang

The Implement of an Image Stitching Algorithm Based on Feature Extraction

Yi Zhuang, Xinrong Hu, and Jianchun Wang

Heuristics Learning System Based on Non-optimum Recognition

Yumeng He and Weidong Tao

Study on Seedtime of "Zero-Approach" Teaching Mode (ZATM) Based on Web

Xianzhi Tian

Views on Chinese Technical and Vocational Education Based on an Innovation Perspective

Tao Ye and Su Shiwei
Research on Relationship among Teaching, Scientific Research and Talents Training .......................................................... 343

Jing Zhao

Discussion of Testing Paper Design in Educational Software .......................................................... 347

Zhang Jing, Zhang Jin, and Chen Junlan

The Application Analysis and Investigation of Multimedia Technique in Tennis Teaching .................................................. 351

Zheng Jun-Hong and Zu Xiao-Fang

Application of Fuzzy Clustering Analysis in Education Management .......................................................... 355

Zhao Yong-Xia

Briefly Analyzing Comprehensive Experiment Training Teaching for Computer Major .......................................................... 357

Zu Xiao-Fang and Zheng Jun-Hong

Mathematical Innovation and the Development of Productivity .......................................................... 360

He Dingxiu, Guo Jie, Xiao Yu, and Hu Xuanzi

A Research on Blahs Bear Correlative and Cognize Warp of Deaf Undergraduates .................................................. 364

Qiang Li and Chenfei Lu

Author Index ....................................................................................................................................................... 368
