2014 International Conference on Interactive Technologies and Games
iTAG 2014

Table of Contents

Message from General Chair ..............................................................................................................vii
Conference Organization ..................................................................................................................viii
Reviewers ..............................................................................................................................................ix
Keynotes .................................................................................................................................................x

Robotics in Education
Remote Operation of Robots via Mobile Devices to Help People
with Intellectual Disabilities .............................................................................................................1
Maria José Gálvez Trigo and David J. Brown

Teaching Computational Thinking by Playing Games and Building Robots .....................................................9
Jonathan Francis Roscoe, Stephen Fearn, and Emma Posey

Games, Apps and Artificial Reality for Health I
How Body Movement Influences Virtual Reality Analgesia? ........................................................................13
Marcin Czub and Joanna Piskorz

An Intelligent Serious Game for Supporting African and African Caribbean Men during Pre- and Post-Diagnosis of Prostate Cancer .........................................................................................20
David Brown, Georgina Cosma, Giovanni Acampora, Sarah Seymour-Smith, and Alex Close

Games, Apps and Artificial Reality for Health II
A Mobile Assistive Application for People with Cognitive Decline ................................................................28
Christos N. Xenakidis, Antonis M. Hadjiantonis, and George M. Milis
Games, Apps and Artificial Reality I
From Snappy App to Screens in the Wild: Gamifying an Attention Deficit Hyperactivity Disorder Continuous Performance Test for Public Engagement and Awareness ..............................................................36
   Michael P. Craven, Zoe Young, Lucy Simons, Holger Schnädelbach, and Alinda Gillott
Flow, Fun and Frame in the Classroom: Redefining the Engagement and Self-Determination of Students with Intellectual Disability through Games ..............................................................................44
   Maria Saridaki and Constantinos Mourlas

Games Based Learning I
Immersive Virtual Reality Deployment in a Lean Manufacturing Environment .............................................................................................................................51
   A. Gamlin, P. Breedon, and B. Medjdoub
'Night Shift': A Task Simulation to Improve On-Call Prioritisation, Self-Management, Communication, and Route Planning Skills .................................................................59
   Chris Larkin, Reena Valand, Paul Syrysko, Roy Harris, Dominick Shaw, Michael Brown, James Pinchin, Kelly Benning, Sarah Sharples, and John Blakey

Games, Apps and Artificial Reality II
Designing Educational Tools, Based on Body Interaction, for Children with Special Needs Who Present Different Motor Skills .................................................................63
   Benoît Bossavit and Alfredo Pina
An Investigation of Gamification Typologies for Enhancing Learner Motivation .................................................................................................................................71
   Barryl Herbert, Darryl Charles, Adrian Moore, and Therese Charles

Games Based Learning II
Using a Blended Pedagogical Framework to Guide the Applications of Games in Non-formal Contexts .........................................................................................79
   Matthew Bates, Aoife Breheny, David Brown, Andy Burton, and Penny Standen

Author Index ............................................................................................................................84
