Message from AHUC-2006 Workshop Co-Chairs

Welcome to the 1st The IEEE International Workshop on Ad Hoc and Ubiquitous Computing (AHUC-2006) held in conjunction with The IEEE International Conference on Sensor Networks, Ubiquitous, and Trustworthy Computing (SUTC-2006) in Taichung, Taiwan.

There were large number paper submissions from Asia Pacific, Europe and North America. A total of 29 papers were submitted to the AHUC-2006 workshop. The papers submitted to AHUC-06 workshop were reviewed by at least three program committee members of the workshop and experts of the technical areas. The selection of the papers was very difficult because many high quality papers were submitted. Finally, 11 papers (around 40% acceptance rate) were accepted for presentation at the AHUC-2006 workshop. The technical program for AHUC-09 workshop is the result of the hard and excellent work of many authors, reviewers, program committee members of the workshop, workshop co-chairs, and program co-chairs. We are very grateful for everyone’s efforts in the development of the technical program.

First of all, we would like to thank Prof. Jeffrey J. P. Tsai, Prof. S. Sitharama Iyengar, and Prof. Lionel M. Ni, General Co-Chairs of SUTC-2006, for giving us a chance to organize AHUC-2006 workshop in conjunction with SUTC-2006. We also would like to thank Prof. Laurence Yang and Prof. Jianhua Ma, SUTC-2006 Workshops Chairs, for kindly helping and encouraging the inclusion of AHUC-2006 in SUTC-2006. Finally, we would like thank Prof. Yuh-Shyan Chen, Prof. Yunghsiang Sam Han, and Prof. Jing Deng, AHUC-2006 Workshop Chairs, and Prof. Tong-Ying Juang and Prof. Lu Yan, AHUC-2006 Program Chairs. Without their timely excellent help, support, and hard work, we could not organize the AHUC-2006 workshop.
