Reuse-Based Programming with the Eiffel Libraries

James McKim

James McKim is a professor of computer science at the Hartford Graduate Center and has more than 25 years experience teaching mathematics and computer science. He has authored, coauthored and reviewed a number of textbooks and articles in both areas. His research interests include object-oriented programming and design in general, and class interface specification in particular. He has been teaching software engineering with Eiffel for many years and played a major role in the evolution of the Eiffel libraries.
