Errata

Errata for
“Discovering Documentation for
Java Container Classes”

Johannes Henkel, Christoph Reichenbach, and Amer Diwan

We would like to correct five mistakes in our paper “Discovering Documentation for Java Container Classes” published in the August 2007 issue of this journal:

1. The caption for Fig. 4 (p. 529) says:
   
   (a) $\text{NewObjectStack()}\text{state}$
   
   instead of
   
   (a) $\text{NewObjectStack().state}$.

2. The caption for Fig. 4 (p. 529) says:
   
   (e) $\text{push(\text{NewObjectStack().state}}$:
   
   instead of
   
   (e) $\text{push(\text{NewObjectStack().state, Object07}.state :}$

3. Section 3.3.3 (p. 531) says:
   
   $op(\text{term1.state}.\text{retval, diff}.\text{retval} = \text{obs(\text{term2}.\text{retval}}$
   
   instead of
   
   $op(\text{obs(\text{term1}.\text{retval, diff}.\text{retval} = \text{obs(\text{term2}.\text{retval}}$

4. In Section 5 (p. 534, bottom of first column) $\text{term1}$ says
   
   $\text{push(\text{ObjectStack().state, 4}.state}$
   
   instead of
   
   $\text{push(\text{ObjectStack().state, Object04}.state}$

5. Equation (8) (p. 539) omits the opening parenthesis after $\text{addAll}$.

We apologize to the reader for any inconvenience these mistakes may have caused. We are indebted to Hewijin Christine Jiau, Dung-Feng Yu, and Kuo-Feng Ssu for pointing out these mistakes.
